Accredited, post-secondary educational institutions meeting the provisions described in IRS regulation 26 CFR 1.501(c) may apply to develop a partnership with Magtumulgi University in Turkmenistan in the field of business administration.

Participating institutions exchange faculty and administrators for a combination of teaching, lecturing, faculty and curriculum development, collaborative research, and outreach, for periods ranging from one week (for planning visits) to an academic year. The FY 98 program will also support the establishment and maintenance of Internet and/or e-mail communication facilities as well as interactive distance learning programs at foreign partner institutions. Applicants may propose other project activities not listed above that are consistent with the goals and activities of the overall program.

The program awards up to \$97,000 for up to a three-year period to defray the cost of travel and per diem with an allowance for educational materials and some aspects of project administration. Grants awarded to organizations with less than four years of experience in conducting international exchange programs will be limited to \$60,000.

Overall grant-making authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries \* \* \*; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations \* \* \* and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program cited above is provided through the Freedom for Russia and Emerging Eurasian Democracies and Open Markets Support Act of 1992

Applicants must follow all instructions given in the Solicitation

Package. The original and 10 copies of the application should be sent to: U.S. Information Agency, Ref.: E/ASU-98-08, Office of Grants Management, E/XE, Room 326, 301 4th Street, S.W., Washington, D.C. 20547.

Applicants must also submit the "Executive Summary" and "Proposal Narrative" sections of the proposal on a 3.5" diskette, formatted for DOS. #### Diversity, Freedom and Democracy Guidelines

Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, religion, geographic location, socio-economic status, and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the "Support for Diversity" section for specific suggestions on incorporating diversity into the total proposal. Public Law 104-319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy", USIA "shall take appropriate steps to provide opportunities for participation in such programs to human rights and democracy leaders of such countries." Proposals should account for advancement of this goal in their program contents, to the full extent deemed feasible.

#### **UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION**

##### **Notice of Availability of the Finding of No Significant Impact for the Revised Fish Hatchery Production Plan**

**AGENCY:** The Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission).

**ACTION:** Notice of Availability of the Finding of No Significant Impact (FONSI).

**SUMMARY:** On April 2, 1998, Michael C. Weland, Executive Director of the Utah Reclamation Mitigation and Conservation Commission signed the

Finding of No Significant Impact (FONSI) which documents the decision to implement the Revised Fish Hatchery Production Plan (Plan). The Plan is programmatic in nature. It provides for the reconstruction of two cold-water hatcheries: Kamas and Whiterocks State Fish Hatcheries; the partial rehabilitation of one cold-water hatchery: Jones Hole National Fish Hatchery; the construction of two new cold-water hatcheries: Fountain Green State Fish Hatchery and Big Springs Tribal Hatchery; the construction of a new warm-water hatchery at either Gandy or Goshen Warm Springs; and an interim native species hatchery. It also includes wetland and/or wildlife habitat enhancement and conversion, improved public education opportunities, stream-side hatching units and new staff residences.

The Mitigation Commission documented the environmental effects of implementing the Revised Plan in an environmental assessment (EA). The Draft EA was developed with public input and the Final EA refined based upon public comment. The Draft and Final EA and Plan were distributed to 115 organizations or individuals. The Commission has found the EA adequate for its decision to fund the implementation of the Proposed Action and has issued its FONSI in accordance with the Commission's NEPA Rule (43 CFR 10010.20).

The Plan incorporates updated feasibility-level cost estimates and long-term fish-stocking needs. The original 1994 Plan was prepared by the U.S. Fish and Wildlife Service, in accordance with and in fulfillment of the Central Utah Project Completion Act of 1992 (Titles II through VI of Pub. L. 102-575).

Implementing the Plan meets the objective of the Central Utah Project Completion Act (CUPCA), section 313(c), Fish Hatchery Production) to increase production of warm- and cold-water fishes for areas affected by the Colorado River Storage Project in Utah, by increasing hatchery production capacity. At the same time, the Plan meets the Commission's mandate to restore, maintain or enhance the biological productivity and diversity of natural ecosystems. This ecosystem restoration standard is met through the provision of the Plan that incorporates the Division's stocking policy, and requires a Tribal stocking policy to reduce the impacts of past practices; includes an education component to educate the public on the use of hatcheries as a tool to meet a management need, and on the importance of habitat to sustain both wild and stocked fish populations;
