

the snapback duty can be applied. The price conditions exist when for each period of 5 consecutive business days the daily price for frozen concentrated orange juice is less than the trigger price.

For the purpose of this provision, the term "daily price" means the daily closing price of the New York Cotton Exchange, or any successor as determined by the Secretary of Agriculture (the "Exchange"), for the closest month in which contracts for frozen concentrated orange juice are being traded on the Exchange. The term "business day" means a day in which contracts for frozen concentrated orange juice are being traded on the Exchange.

The term *trigger price* means the average daily closing price of the Exchange for the corresponding month during the previous 5-year period, excluding the year with the highest average price for the corresponding month and the year with the lowest price for the corresponding month.

Price conditions no longer exist when the Secretary determines that for a period of 5 consecutive business days the daily price for frozen concentrated orange juice has exceeded the trigger price.

Whenever the price conditions are determined to exist or to cease to exist the Secretary is required to immediately notify the Commissioner of Customs of such determination. Whenever the determination is that the price conditions exist and the quantity of Mexican articles of frozen concentrated orange juice entered exceeds (1) 264,978,000 liters (single strength equivalent) in any of calendar years 1994 through 2002, or (2) 340,560,000 liters (single strength equivalent) in any of calendar years 2003 through 2007, the rate of duty on Mexican articles of frozen concentrated orange juice that are entered after the date on which the applicable quantity limitation is reached and before the date of publication in the **Federal Register** of the determination that the price conditions have ceased to exist shall be the lower of—(1) the column 1—General rate of duty in effect for such articles on July 1, 1991; or (2) the column 1—General rate of duty in effect on that day. For the purpose of this provision, the term *entered* means entered or withdrawn from warehouse for consumption in the customs territory of the United States.

In accordance with Section 309(a) of the NAFTA Implementation Act, it has been determined that for the period April 6–13, 1998, the daily price for frozen concentrated orange juice was less than the trigger price.

Issued at Washington, D.C. the 20th day of April, 1998.

Timothy J. Galvin,

Acting Administrator, Foreign Agricultural Service.

Submission for OMB Review; Comment Request

The Department of Commerce (DOC) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). This collection has been submitted under the emergency Paperwork Reduction Act procedures.

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Interim Rule to Monitor the Gulf of Mexico Shrimp Vessels.

Agency Form Number: N/A.

OMB Approval Number: N/A (new number to be assigned).

Type of Request: New Collection—Emergency Review.

Burden: 308 hours.

Number of Respondents: 150.

Avg. Hours Per Response: Notification requirements—5 minutes; VMS installation and monitoring—6 hours; and logbook requirements—20 minutes.

Needs and Uses: The shrimp fishery is managed under the Fishery Management Plan for the Shrimp Fishery in the Gulf of Mexico, prepared by the Gulf of Mexico Fishery Management Council. These interim measures are needed to provide more effective monitoring of shrimp trawl bycatch of red snapper to determine the appropriate red snapper allowable catch levels, and thereby prevent overfishing of that species. The resulting data will be part of a significant short-term research program aimed at evaluating the effectiveness of Bycatch Reduction Devices (BRDs) in an operational context.

Affected Public: Businesses or other for-profit organizations, individuals.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395–3897.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482–3272, Department of Commerce, Room 5327, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Written comments and recommendations for the proposed

information collection should be sent to David Roster, OMB Desk Officer, Room 10202, New Executive Office Building, 725 17th Street, N.W., Washington, D.C. 20503. A clearance has been requested by Monday, April 27, 1998.

Dated: April 21, 1998.

Linda Engelmeier,

Departmental Forms Clearance Officer, Office of Management and Organization.

Certain Cut-to-Length Carbon Steel Plate From Brazil: Amendment of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amendment of final results of antidumping duty administrative review.

SUMMARY: On March 16, 1998, the Department of Commerce ("the Department") published the final results of its administrative review of the antidumping duty order on Certain Cut-to-Length Carbon Steel Plate from Brazil (63 FR 12744) covering the period August 1, 1995 through July 31, 1996. Based on the correction of certain ministerial errors made in the final results, we are publishing this amendment.

EFFECTIVE DATE: April 27, 1998.

FOR FURTHER INFORMATION CONTACT: Samantha Denenberg or Linda Ludwig, Office of AD/CVD Enforcement, Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230; telephone (202) 482–0414 or 482–3833, respectively.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all references to the Department's regulations are to 19 CFR Part 353 (April 1, 1997).

Scope of This Review

The products covered by this administrative review constitute one "class or kind" of merchandise: certain cut-to-length carbon steel plate. These products include hot-rolled carbon steel universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule (HTS) under item numbers 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, and 7212.50.0000. Included are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges. Excluded is grade X-70 plate. These HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The POR is August 1, 1995, through July 31, 1996. This review covers entries of Certain Cut-to-Length Carbon Steel Plate by Usinas Siderurgicas de Minas Gerais ("USIMINAS") and Companhia Siderurgica Paulista ("COSIPA"). These two producers/exporters have been collapsed ("USIMINAS/COSIPA") and are being treated as one entity for the purpose of this review.

Background

On March 16, 1998, the Department published the final results of its administrative review of the antidumping duty order on Certain Cut-to-Length Carbon Steel Plate from Brazil (63 FR 12744). This review covers one manufacturer/exporter of the subject merchandise, Usinas Siderurgicas de Minas Gerais ("USIMINAS") and Companhia Siderurgica Paulista ("COSIPA"), for the period August 1, 1995 through July 31, 1996. After publication of our final results, we received timely allegations from the petitioners that we had made ministerial errors in calculating the final results. USIMINAS/COSIPA did not file a rebuttal to the petitioners' ministerial error allegations. We have corrected our calculations, in which we agree that we made ministerial errors, in accordance with section 751(h) of the Tariff Act.

In the final results, the "all others" cash deposit rate was incorrectly stated to be 36.00 percent. The correct "all others" rate (from the LTFV investigation) is 75.54 percent. See Final Determination of Sales at Less Than Fair Value: Certain Cut-to-Length Carbon Steel Plate from Brazil, 58 FR 37091 (July 9, 1993).

Analysis of Ministerial Error Allegations Received From Interested Parties

We received two ministerial error allegations from petitioners. First, petitioners contend that the Department

did not consistently change the variable name for USIMINAS' home market inland freight expense for all pertinent programs. In the final results, the Department included USIMINAS' INFLFTCH field in the proper calculation strands of the model match program, but did not make the corresponding corrections in the arm's length program. Petitioners further noted that COSIPA's INFLFTCH field (also home market inland freight expense) should also be included in the movement expense calculation string.

As defined by section 751(h) of the Act, the term "ministerial error" includes errors "in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the [Department] considers ministerial." We agree with petitioners that USIMINAS' INFLFTCH field and COSIPA's INFLFTCH field should be included in the proper calculation strings in the arm's length program. We have made the suggested corrections for the amended final results.

Second, petitioners contend that the length of the customer code field defined in the arm's length program was insufficient. Petitioners state that the length statement for CUSCODH needs to be changed so that the results of the arm's length program are correctly applied to the model match program.

We agree with petitioners that the length statement for the customer code field needs to be changed. We have made the suggested corrections for the amended final results.

Amended Final Results of Review

We determine that the following weighted-average margin exists:

Manufacturer/exporter	Period of review	Margin (percent)
Usinas Siderurgicas de Minas Gerais ("USIMINAS")	08/01/95–07/31/96	11.70
Companhia Siderurgica Paulista ("COSIPA")	08/01/95–07/31/96	11.70

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. We will calculate importer-specific *ad valorem* duty assessment rates based on the entered value of each entry of subject merchandise during the POR. We will direct the Customs Service to collect cash deposits of estimated antidumping duties on all

appropriate entries. The amended deposit requirements are effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication date of this notice and will remain in effect until the publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties

occurred and subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34 (d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested.

This administrative review and notice are in accordance with Section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: April 16, 1998.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Circular Welded Non-Alloy Steel Pipe From Korea; Final Results of Antidumping Duty Changed Circumstances Review

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty changed circumstances review.

SUMMARY: On March 26, 1998, the Department of Commerce published in the **Federal Register** the preliminary results of its antidumping duty changed circumstances review on certain welded stainless steel pipe from Korea (63 FR 14679) to examine whether SeAH Steel Corporation is the successor to Pusan Steel Pipe, the successor to Sammi Metal Products Co., or neither. We have now completed this review and determine that, for purposes of applying the antidumping duty law, SeAH Steel Corporation is the successor to Pusan Steel Pipe and, as such, should be assigned the antidumping deposit rate applicable to Pusan Steel Pipe.

EFFECTIVE DATE: April 27, 1998.

FOR FURTHER INFORMATION CONTACT: Marian Wells or Cynthia Thirumalai, Import Administration, International

Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington D.C. 20230; telephone (202) 482-6309, (202) 482-4087.

SUPPLEMENTARY INFORMATION:

Background

On March 26, 1998, the Department of Commerce (the Department) published in the **Federal Register** the preliminary results of its antidumping duty changed circumstances review on certain welded stainless steel pipe from Korea (63 FR 14679). We have now completed this changed circumstances review in accordance with section 751(b) of the Tariff Act of 1930, as amended (the Act).

Scope of Review

The merchandise subject to this review is circular welded non-alloy steel pipe and tube, of circular cross-section, not more than 406.4mm (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipes and tubes and are intended for the low-pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air-conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing applications, such as for fence tubing, and as structural pipe tubing used for framing and as support members for reconstruction or load-bearing purposes in the construction, shipbuilding, trucking, farm equipment, and other related industries. Unfinished conduit pipe is also included in this order.

All carbon-steel pipes and tubes within the physical description outlined above are included within the scope of this review except line pipe, oil-country tubular goods, boiler tubing, mechanical tubing, pipe and tube hollows for redrums, finished scaffolding, and finished conduit. In accordance with the Department's Final Negative Determination of Scope Inquiry on Certain Circular Welded Non-Alloy Steel Pipe and Tube from Brazil, the Republic of Korea, Mexico, and Venezuela (61 FR 11608, March 21, 1996), pipe certified to the API 5L line-pipe specification and pipe certified to both the API 5L line-pipe specifications and the less-stringent ASTM A-53 standard-pipe specifications, which falls within the physical parameters as outlined above, and entered as line pipe of a kind used for oil and gas pipelines

is outside of the scope of the antidumping duty order.

Imports of these products are currently classifiable under the following Harmonized Tariff Schedule (HTS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

This changed circumstances administrative review covers SeAH Steel Corporation (SeAH) and any parties affiliated with SeAH.

Successorship and Final Results of Review

We received no comments on the preliminary results of review. Therefore, for the reasons stated in the preliminary results of review and based on the facts on the record, we find that SeAH is the successor to Pusan Steel Pipe (PSP) for antidumping duty cash deposit purposes.

SeAH will, therefore, be assigned the PSP cash deposit rate of 6.00 percent ad valorem. This cash deposit requirement will be effective upon publication of this notice of final results of changed circumstances review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date. This cash deposit rate shall remain in effect until publication of the final results of the next administrative review.

This determination is issued and published in accordance with section 777(i)(1) of the Act and 19 CFR 353.22(f).

Dated: April 21, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.
