**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0501.

*Title:* Section 76.206, Candidate Rates.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 10,750.

*Estimated Time Per Response:* 2-10 hours.

*Frequency of Response:* On occasion.

*Total Annual Burden to Respondents:* 139,750 hours, calculated as follows:

There are approximately 10,750 cable systems in the nation. We estimate that in any given year, candidates for public office will be interested in seeking origination cablecast time from approximately half of these systems (5,375). We estimate that these cable systems will be required to make the various advertising rate disclosures set forth in Section 76.206 to an average of 4 candidates. The average burden on systems to disclose this information is estimated to be .5 hours per candidate, meaning 2 hours per cable system. 5,375 systems x 2 hours = 10,750 hours. We estimate that each cable system will calculate its lowest unit charge semi-annually with an average burden of 10 hours per system. 5,375 systems x 2 calculations x 10 hours = 107,500 hours. Systems are also required to periodically review their advertising records throughout the election period to determine whether compliance with Section 76.206 requires that candidates receive rebates or credits. We estimate that cable systems will review their records an average of 2 times throughout the election period, undergoing a burden of 2 hours per review. 5,375 systems x 2 reviews x 2 hours = 21,500 hours.

*Total Annual Cost to Respondents:* Postage and stationery costs associated with the various requirements contained

in Section 76.206 are estimated to be \$5 per system. 5,375 systems x \$5 = \$26,875.

*Needs and Uses:* On December 12, 1991, the Commission adopted Report and Order, FCC 91-403, MM Docket No. 91-168, in the matter of codification of the Commission's political programming policies. The Report and Order adopted affirmative disclosure requirements obliging cable television systems to disclose and make available to candidates all discount privileges available to commercial advertisers, including the lowest unit charge for the different classes of time sold. The Report and Order added Section 76.206 to the Commission's rules. Section 76.206 requires cable television systems to disclose any system practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time (immediately preemptible, preemptible with notice, fixed, fire sale, and make good). It also requires cable systems to calculate the lowest unit charge. The disclosure requirements contained in Section 76.206 serve to ensure that cable system licensees provide timely, accurate and complete information on rates and sales practices to legally qualified candidates for public office who are interested in origination cablecasting.
