

discharges to particular distances from land, and establishing 'special areas' within which additional discharge limitations apply. Special areas are particular bodies of water which, because of their oceanographic characteristics and ecological significance, require protective measures more strict than other areas of the ocean. Within special areas that are in effect internationally, except under emergency circumstances the only authorized garbage discharge from vessels is food waste. At present, three special areas are in effect: the North Sea, the Baltic Sea, and the Antarctic Region.

The Act to Prevent Pollution from Ships established deadlines for compliance by U.S. Navy ships with the Annex V special area requirements. Surface ships must comply with the special area requirements by December 31st of the year 2000. Submarines must comply with the special area requirements by December 31st of the year 2008. APPS further requires the Secretary of Defense to report in the **Federal Register** the amount and nature of Navy ship discharges in special areas, not otherwise authorized under MARPOL ANNEX V.

This **Federal Register** notice is the fourth of the required annual reports. This report covers the period between 1 August 1996 and 31 July 1997. The end date of July 31st is necessary to allow time for data collection and report preparation. During the period 1 August 1996 through 31 July 1997 there were no garbage discharges from Navy ships into MARPOL Annex V special areas that were not authorized under MARPOL Annex V.

Dated: May 18, 1998.

Department of the Navy

Plastic Processor Installation on Navy Ships

AGENCY: Department of the Navy, DOD.

ACTION: Notice.

SUMMARY: Under 33 U.S.C. 1902(e)(4)(B), the Secretary of Defense must report annually in years 1996 through 1998 a list of ships equipped with plastic processors. This notice is the second annual report.

FOR FURTHER INFORMATION CONTACT: Mr. Louis Maiuri, Office of the Chief of

Naval Operations Environmental Protection, Safety and Occupational Health Division, Crystal City Plaza #5, Room 654, 2211 South Clark Place, Arlington, Virginia, 22244-5108, telephone 703-602-2602.

SUPPLEMENTARY INFORMATION: The International Convention on the Prevention of Pollution from ships (MARPOL) as amended by the MARPOL Protocol of 1978, protects the ocean environment by prohibiting some discharges altogether, restricting other discharges to particular distances from land, and establishing "special areas" within which additional discharge limitations apply. One of the discharges specified for restriction under MARPOL Annex V is plastics.

U.S. law, 33 U.S.C. 1902(e)(2), requires ships equipped with plastics processors to comply with MARPOL Annex V provisions for the disposal of plastics. The law also establishes an installation schedule for plastics processor equipment aboard ships. The first production unit shall be installed by July 1, 1996 on board a Navy ship. At least 25 percent of ships requiring processors shall be equipped by March 1, 1997. At least 50 percent of ships requiring processors shall be equipped by July 1, 1997. No less than 75 percent of ships requiring processors shall be equipped by July 1, 1998, and all vessels requiring plastics processors shall be equipped by December 31, 1998. The statute further requires the Secretary of Defense to report in the **Federal Register** a list of the names of ships equipped with plastics processors.

This **Federal Register** notice is the second of the required annual reports. A list of the 138 Navy ships equipped with plastics processors by February 1, 1998 follows:
