## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection

#### Activities: Proposed Reinstatement of Collection With Changes; Comment Request; Antarctic Conservation Act Application Permit Form

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** Under the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed reinstatement of information collection with changes.

**DATES:** NSF should receive comments on or before August 3, 1998.

**ADDRESSES:** Submit written comments to Anita Eisenstadt, Assistant General Counsel, through surface mail (National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230); e:mail (aeisenst@nsf.gov) or fax (703-306-0149).

**FOR FURTHER INFORMATION CONTACT:** Call or write Anita Eisenstadt, Assistant General Counsel, for a copy of the collection instrument and instructions at National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230; call (703) 306-1060, or send e:mail to aeisenst@nsf.gov.

**SUPPLEMENTARY INFORMATION:** *Abstract:* The National Science Foundation, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 *et seq.*) ("ACA") regulates via a permit system certain activities in Antarctica. The subject form is used by NSF to collect information needed in permit administration. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act and NSF is revising its regulations, and making minor revisions to the ACA permit application form, to implement these statutory amendments. The information collection cited in this notice is contained in the proposed rule found elsewhere in this issue of the **Federal Register**.

*Expected respondents.* Respondents may include individuals, for-profit, Federal agencies, non-profits, and small businesses. The majority of respondents are scientists at educational institutions who plan to conduct scientific research in Antarctica.

*Burden on the Public.* The Foundation estimates that a total annual reporting

and recordkeeping burden of ten hours will result from the collection of information. The calculation is 20 respondents  $\times$  1 response per year  $\times$  1/2 hour/respondent = 10 hours.

Dated: May 21, 1998.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-410]

### Central Hudson Gas & Electric Corporation; Nine Mile Point Nuclear Station, Unit No. 2

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an Order approving, under 10 CFR 50.80, an application regarding a transfer of control of possessory rights held by Central Hudson Gas & Electric Corporation (Applicant) under the operating license for Nine Mile Point Nuclear Station, Unit No. 2 (NMP2). The transfer would be to a holding company, not yet named, to be created over Applicant in accordance with a New York State Public Service Commission order, issued and effective February 19, 1998 (Case 96-E-0909), and related documents entitled "Amended and Restated Settlement Agreement" dated January 2, 1998, and "Modifications to Amended and Restated Settlement Agreement" dated February 26, 1998 (see Exhibits G-G2 in the application). Applicant is licensed by the Commission to own and possess a 9 percent interest in NMP2.

By application dated April 8, 1998, Applicant informed the Commission of a proposed corporate restructuring under which Applicant would become a subsidiary of a newly formed holding company. The outstanding shares of Applicant's common stock will be exchanged on a share-for-share basis for common stock of the holding company, such that the holding company will own all of the outstanding common stock of Applicant. The holding company will own, directly or indirectly, the stock of any non-utility subsidiaries except that Applicant will continue to own one unregulated subsidiary. Under this restructuring, Applicant will sell at auction its fossil-fueled electric generation facilities at its Danskammer Steam Generating Plant and its partial interest in the Roseton Electric Generation Plant (hereafter, collectively referred to as "Generation Assets"). However, Applicant will continue to be an "electric utility" as defined in 10 CFR 50.2 engaged in the transmission, distribution and, in the case of NMP2, combustion turbine facilities, hydroelectric facilities, and (until structurally separated or divested), the Generation Assets, the generation of electricity. Applicant would retain its ownership interest in NMP2 and continue to be a licensee of NMP2. No direct transfer of the operating license or ownership interests in the station will

result from the proposed restructuring. The transaction would not involve any change to either the management organization or technical personnel of Niagara Mohawk Power Corporation, which is responsible for operating and maintaining NMP2.

Pursuant to 10 CFR 50.80, the Commission may approve the transfer of control of a license after notice to interested persons. Such approval is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the Applicant's application dated April 8, 1998, as supplemented April 22, 1998. These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, DC, and at the local public document room located at the Penfield Library, State University of New York, Oswego, New York 13126.

Dated at Rockville, Maryland this 26th day of May 1998.
