DEPARTMENT OF DEFENSE

48 CFR Part 235

[DFARS Case 97-D002]

Defense Federal Acquisition Regulation Supplement; Streamlined Research and Development Contracting

AGENCY: Department of Defense (DoD).

ACTION: Interim rule with request for comments.

SUMMARY: The Director of Defense Procurement has issued an interim rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement streamlined solicitation and contracting procedures for research and development acquisitions. The streamlined procedures are expected to reduce the time and cost required to obtain proposals and award research and development contracts.

DATES: *Effective date:* June 25, 1998.

Comment date: Comments on the interim rule should be submitted in writing to the address shown below on or before August 24, 1998, to be considered in the formulation of the final rule.

ADDRESSES: Interested parties should submit written comments to: Defense Acquisition Regulations Council, Attn: Michael Pelkey, PDUSD (A&T) DP (DAR), IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301-3062. Telefax number (703) 602-0350.

E-mail comments submitted over the Internet should be addressed to: dfars@acq.osd.mil.

Please cite DFARS Case 97-D002 in all correspondence related to this issue. E-mail comments should cite DFARS Case 97-D002 in the subject line.

FOR FURTHER INFORMATION CONTACT: Michael Pelkey, (703) 602-0131.

SUPPLEMENTARY INFORMATION:

A. Background

In October 1994, the Director of Defense Procurement authorized a test of certain streamlined solicitation and contracting procedures for research and development acquisitions at certain DoD laboratories. The test results demonstrated the benefits of standardizing the format of solicitations

and contracts issued by various contracting activities, and of using the standard format to streamline the solicitation and contracting process. However, to facilitate maintenance of an accurate and timely standard format, to move towards a paperless solicitation and contracting process, and to leverage available information technology, the standard format has been moved from the DFARS to a World Wide Web site. Similarly, solicitations issued using these procedures will be published exclusively on the World Wide Web. This final rule supersedes the interim rule published under DFARS Case 96-D028 on April 4, 1997 (62 FR 16099).

B. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule merely provides an implementation of electronic contracting procedures already authorized by the Federal Acquisition Regulation. An initial regulatory flexibility analysis has, therefore, not been performed. Comments are invited from small businesses and other interested parties. Comments from small entities concerning the affected DFARS subpart also will be considered in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 97-D002 in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

D. Determination to Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense that urgent and compelling reasons exist to publish this interim rule prior to affording the public an opportunity to comment. This interim rule provides streamlined procedures, and a standard solicitation and contract format, for acquisition of research and development. Streamlined procedures and use of the World Wide Web will substantially reduce the time and cost required to obtain proposals and award research and development contracts. Any delay in implementing these procedures will result in the loss of potential savings, thus reducing the Department's buying power. Implementation of these procedures will

also help the Department achieve its paperless contracting goal by the year 2000. Comments received in response to the publication of this interim rule will be considered in formulating the final rule.
