This notice also lists the following information:

Title of Proposal: A survey of Low-Income Housing Tax Credit Developers and Owners.

Description of the need for the information and proposed use: The Low-Income Housing Tax Credit (LIHTC) program is the Federal government's most important but least well-understood affordable housing production program. This national survey will contribute to the now-limited but growing body of knowledge about how the program works and who is participating in it. It consists of a national probability sample of developer/owner entities that placed at least one LIHTC rental property in service between January 1992 and December 1994. Information will be gathered about: the types and characteristics of developer/owner entities that produce affordable rental housing in conjunction with the LIHTC

program; factors that were important to their decisions to develop affordable rental housing using the LIHTC; factors that were considered when deciding upon the location, scale, resident composition, and other characteristics of their properties; their post-development experiences with respect to the performance of their properties; and their longer-term plans with respect to their properties.

HUD is responsible for assessing the housing needs of low-income households and administering a variety of housing assistance programs to meet those needs. The LIHTC program operates in conjunction with and in the context of ongoing HUD programs. Although HUD is not directly responsible for the LIHTC program, it is important to an overall understanding of the affordable housing delivery system to know more about this program, including who develops, owns, and operates properties benefiting from LIHTCs, what affects their investment and development decisions, and their longer-term plans with respect to their properties. This information will assist the Department in better assessing and meeting the affordable housing needs of the Nation's low-income households.

Members of the affected public: A probability sample of development/ownership entities that placed at least one LIHTC property in service between January 1, 1992 and December 31, 1994 will be surveyed.

Estimation of the total number of hours needed to prepare the information collection, including number of respondents, frequency of response, and hours of response: Information will be collected by a one-time telephone survey with 800 spokespersons representing developer/owner entities. Each interview will take an average of 30 minutes to complete, resulting in a total of approximately 400 hours of response time for the information collection.

Status of the proposed information collection: Pending OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: June 19, 1998.

Paul L. Leonard,

Deputy Assistant Secretary for Policy Development.
