Susanne Cerrelli	Rm. 14, 9th floor, CM #2, 703-308-8077, e-mail: cerrelli.susanne@epamail.epa.gov.	Do.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register-Environmental Documents** entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of November 2, 1994 (59 FR 54903) (FRL-4917-5), which announced that W. R. Grace and Company, 7379 Route 32, Columbia, MD 21044, had submitted applications to register the pesticide products PFR-MUP and PFR-97™ WDG (EPA File Symbols 11688-RL and 11688-RA), containing the new active ingredient *Paecilomyces fumosoroseus* Apopka Strain 97 at 7 and 12.5 percent respectively, an active ingredient not included in any previously registered products.

These applications were subsequently transferred to Thermo Trilogy Corporation, 9145 Guilford Road, Suite 100, Columbia, MD 21046. The applications were approved on April 22, 1998, with new assigned registration numbers for the products PFR-MUP for manufacturing use only in the formulation of insecticides (EPA Registration Number 70051-17) and PFR-97™ 20% WDG for use on whiteflies, aphids, thrips, spider mites, ornamentals, nonfood crops in greenhouses, and interiorscapes (EPA Registration Number 70051-19). (S.Bacchus)

EPA also published a notice in the **Federal Register** of February 20, 1997 (62 FR 7776) (FRL-5588-2), which announced that W. Neudorff GmbH KG Postfach 1209, an der Muhle 3, D-31860 Emmerthal, Germany, had submitted an application to register the pesticide product NEU 1160 Vegetable Oil Spray (EPA File Symbol 67702-U) containing the ingredient canola oil at 96 percent, an active ingredient not included in any previously registered product.

The application was approved on April 28, 1998, as NEU 1160 Vegetable Oil Insecticide (EPA Registration

Number 67702-4), for use to control adelgids, aphids, cankerworms, caterpillars, fungus gnats, mites, and a variety of other insects on growing crops. (S. Cerrelli)

The Agency has considered all required data on risks associated with the proposed use of *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the microbial or biochemical pesticide and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on these registrations is contained in an EPA Pesticide Fact Sheet on *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil.

A copy of these fact sheets, which provide a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 119, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of

Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

List of Subjects

Environmental protection, Pesticides and pests, Product registration.

Sheila Moats	Rm. 14, 9th floor, CM #2, 703-308-1259, e-mail: moats.sheila@epamail.epa.gov.	Do.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register**-Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of January 22, 1997 (62 FR 3287) (FRL-5582-4), which announced that Themac Incorporation P.O. Box 5209, Valdosta, GA 31603-5209, had submitted an application to register the pesticide product Game Stop a vertebrate repellent (EPA File Symbol 70061-R), containing the new active ingredient fish oil at 11.6 percent, an active ingredient not included in any previously registered product.

The application was approved on March 6, 1998, as Game Stop, (EPA Registration Number 70061-1) for terrestrial use application of liquid formulation to foliage and twigs of trees, shrubs, and ornamental plants which are fed upon by rabbits and deer. (S. Moats)

EPA also published a notice in the **Federal Register** of October 30, 1997 (62 FR 58729) (FRL-5751-4), which announced that Engelhard Corporation, 101 Wood Avenue, Iselin, NJ 08830, had submitted applications to register the pesticide products M-97-002, M-97-009, and M-96-018 (EPA File Symbols 70060-E, 70060-R, and 70060-G) containing the active ingredient kaolin at 99.4, 100, and 98.8 percent respectively, an active ingredient not included in any previously registered products.

The applications for these products were approved on March 17, 1998, as M-97-002 Kaolin, M-97-009 Kaolin, and M-97-018 Kaolin, as a broad spectrum agricultural repellent/protectant for controlling damage to crops from various insects, mites, fungal, and bacterial diseases (EPA Registration Numbers 70060-2, 70060-1, and 70060-3), respectively. (D. Benmhend)

The Agency has considered all required data on risks associated with the proposed use of fish oil and kaolin, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use,

application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of fish oil and kaolin when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on these registrations is contained in an EPA Pesticide Fact Sheet on fish oil and kaolin.

A copy of these fact sheets, which provide a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 119, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

ENVIRONMENTAL PROTECTION AGENCY

[PF-808; FRL-5791-6]

Notice of Filing of a Pesticide Petition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of certain pesticide chemicals in or on various food commodities.

DATES: Comments, identified by the docket control number PF-808, must be received on or before August 7, 1998.

ADDRESSES: By mail submit written comments to: Public Information and Records Integrity Branch (7502C), Information Resources and Services Division, Office of Pesticides Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person bring comments to: Rm. 119, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically to: opp-docket@epamail.epa.gov. Follow the instructions under "SUPPLEMENTARY INFORMATION." No confidential business information should be submitted through e-mail.

Information submitted as a comment concerning this document may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). CBI should not be submitted through e-mail. Information marked as CBI will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 119 at the address given above, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Richard W. King, Regulatory Action Leader, Biopesticides and Pollution Prevention Division, (7511C), Office of Pesticide Programs,
