BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

Baltimore Gas & Electric Company, Calvert Cliffs Nuclear Power Plant Units 1 and 2; Notice of Opportunity for a Hearing Regarding Renewal of Facility Operating Licenses Nos. DPR-53 and DPR-69 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (the Commission) is considering the renewal of facility operating licenses Nos. DPR-53 and DPR-69, which authorize Baltimore Gas & Electric Company (BG&E), the applicant, to operate its Calvert Cliffs Nuclear Power Plant (CCNPP), Units 1 and 2 at 2700 megawatts thermal. BG&E submitted an application to renew the operating licenses for its CCNPP units by letter dated April 8, 1998. A Notice of Receipt of Application, "Baltimore Gas & Electric Company; Calvert Cliffs Nuclear Power Plant Units 1 & 2; Notice of Receipt of Application for Renewal of Facility Operating Licenses Nos. DPR-53 and DPR-69 for an Additional 20-Year Period," was published on April 27, 1998, in the **Federal Register** (63 FR 20663). The renewed licenses would authorize the applicant to operate CCNPP Units 1 and 2 for an additional 20 years beyond the current 40-year period. The current license for Unit 1 expires on July 31, 2014, and the current license for Unit 2 expires on August 13, 2016.

Prior to issuance of the requested license renewals, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's rules and regulations. In accordance with 10 CFR 54.29, the NRC will issue a renewed license upon its review and finding that actions have been identified and have been or will be taken with respect to (1) managing the effects of aging during the period of extended operation on the functionality of structures and components that have been identified to require an aging management review and (2) time-limited aging analyses that have been identified to require review

such that there is reasonable assurance that the activities authorized by the renewed license will continue to be conducted in accordance with the current licensing basis (CLB) and that any changes made to the plant's CLB comply with the Act and the Commission's regulations. The NRC, in accordance with 10 CFR 51.95(c), will prepare an environmental impact statement which is a supplement to the Commission's NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (May 1996). A "Notice of Intent to Prepare an Environmental Impact Statement and Conduct Scoping Process" was issued on June 10, 1998, in the **Federal Register** (63 FR 31813). As discussed further below, in the event that a hearing is held, issues that may be litigated will be confined to those pertinent to the foregoing.

By August 7, 1998, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the license renewals in accordance with the provisions of 10 CFR 2.714. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, D.C. and at the local public document room for the CCNPP Units 1 and 2 located in the Calvert County Public Library, 30 Duke Street, Prince Frederick, MD 20678. If the applicant files a request for a hearing or if any person whose interest may be affected by this proceeding files a request for a hearing and a petition for leave to intervene by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request(s) and/or petition(s), and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order. In the event that no request for hearing or petition for leave to intervene is filed by the above date, the NRC may, upon completion of its evaluations and upon making the findings required under 10 CFR Part 54 and Part 51, renew the licenses without further notice.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding, taking into

consideration the limited scope of matters which may be considered pursuant to 10 CFR Parts 54 and 51. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order that may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend a petition, without requesting leave of the Board, up to 15 days prior to the holding of the first pre-hearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first pre-hearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the
