

radiological impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded that there is no measurable environmental impact associated with the proposed action, any alternative with equal or greater environmental impact need not be evaluated. The principal alternative to the action would be to deny the request. Denial of the exemption request would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Haddam Neck Plant.

Agencies and Persons Consulted

In accordance with its stated policy, on July 1, 1998, the NRC staff consulted with Mr. Dwayne Gardner of the State of Connecticut, Department of Environmental Protection, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this action, see the licensee's letter dated June 19, 1997, which is available for public inspection at the Commission's Public Document Room, Gelman Building, 2120 L Street, NW., Washington, DC, and at the Local Public Document Room at the Russell Public Library, 123 Broad Street, Middletown, Connecticut.
