July 2, 1998.

Take notice that on June 29, 1998, Overthrust Pipeline Company (Overthrust) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1-A, Second Revised Sheet Nos. 37A, 78A, 78B, 78C and Third Revised Sheet No. 78, to be effective August 1, 1998.

Overthrust states that the filing is being made in compliance with Order No. 587-G, Final Rule, issued April 16, 1998, in Docket No. RM96-1-007.

Overthrust states that this filing is made in accordance with the Commission's directive to implement, by August 1, 1998, (1) 18 CFR 284.10(b), which incorporates by reference the Version 1.2 GISB standards and (2) 18 CFR 284.10(c)(3)(ii) through (v) relating to the standards for information posted on pipeline web sites, the content of information provided electronically, the use of numeric designations and retention of electronic information.

Overthrust states further that it seeks waiver of § 284.10(c)(3)(iii) of the Commission's regulations requiring pipelines that use a numeric or other designation to represent information, to make available to users an electronic cross-reference table between the numeric or other designation and the information represented by that designation. Overthrust explains that its gas-management system has been designed to use DUNS numbers for EDI computer-to-computer communications, as required by the GISB standards.

Overthrust explains further that because Dunn and Bradstreet has not yet agreed to permit pipelines to publish a cross-reference table as required by this regulation, Overthrust respectfully seeks waiver of § 284.10(c)(3)(iii) of the Commission's regulations until (1) Dunn and Bradstreet permits the development of a cross-reference table, or (2) the industry develops its own cross-reference table or ceases using numeric designations and returns to using names.

Overthrust states that a copy of this filing has been served upon its customers, the Public Service Commission of Wyoming and the Public Service Commission of Utah.
