

Colonial Pipeline regardless of whether the refiner takes delivery of RFG in the specific cities that failed the oxygen survey.

The adjusted oxygen standard applies to all averaged RFG produced by a refinery or imported by an importer identified in § 80.41(q). In accordance with § 80.41(p), the effective date of this change is October 7, 1998.

Thus, under § 80.41(p) the more stringent oxygen standard applies at all points of the distribution system beginning on October 7, 1998, including terminals supplying the affected covered areas and retail outlets in the covered areas. However, EPA believes it may be difficult for all regulated parties to transition to the new oxygen standard by October 7, 1998. As a result, EPA intends to enforce the new oxygen standard in a manner that gives parties additional time. Refiners, importers, and oxygenate blenders will be required to meet the new oxygen standard beginning October 7, 1998. In the case of parties other than refiners, importers, oxygenate blenders, retailers and wholesale purchaser-consumers, (e.g., pipelines and terminals supplying gasoline to affected covered areas) EPA will enforce the new oxygen standard beginning December 7, 1998.<sup>4</sup> In the case of retail outlets and wholesale purchaser-consumer facilities located in the affected covered areas EPA will enforce the new oxygen standard beginning January 5, 1999. EPA has initiated a rulemaking to revise § 80.41(p) to reflect the need for additional downstream transition time when a standard is changed.

### Proposed Prospective Purchaser Agreement Pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as Amended by the Superfund Amendments and Reauthorization Act, National Mine Tailings Pile Superfund Site, Park Hills, Missouri

**AGENCY:** Environmental Protection Agency.

**ACTION:** Proposal of CERCLA Prospective Purchaser Agreement for the National Mine Tailings Pile Superfund Site.

**SUMMARY:** Notice is hereby given that a proposed prospective purchaser agreement associated with the National Mine Tailings Pile Superfund Site, located in Park Hills, St. Francois, Missouri, was executed by the Agency on May 13, 1998, and concurred upon by the United States Department of Justice on June 9, 1998. The Site is part of an inactive lead and zinc mining area known as The Old Lead Belt. The agreement, between Classic Equine Equipment, Inc. ("the purchaser") and the United States Environmental Protection Agency ("EPA"), is subject to final approval after the comment period. The Prospective Purchaser Agreement would resolve certain potential EPA claims under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA").

Under this proposed agreement, the purchaser would be required to grade the property, cover it with stone, gravel, topsoil and grass and maintain the integrity of the surface so that no mining wastes remain at the ground surface and the potential for erosion is minimized.

The settlement also requires the purchaser to: restrict the use of groundwater; limit human or animal exposure to hazardous substances at the Site; ensure non-interference with the performance, operation, and maintenance of any selected response action; and ensure the integrity and effectiveness of any selected environmental response action, including monitoring of groundwater, soils, and sediments.

The purchaser is required to grant access to the property to EPA, its authorized officers, employees, representatives, and all other persons performing response actions under EPA

oversight. If the purchaser fails to comply with the terms of the Agreement and Covenant Not to Sue, the purchaser would be liable for all litigation and other enforcement costs incurred by the United States to enforce this Agreement. **DATES:** Comments must be submitted on or before August 10, 1998.

**ADDRESSES:** *Availability:* The proposed settlement is available for public inspection at the U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101. A copy of the proposed agreement may be obtained from Jack Generaux, Remedial Project Manager, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101. Comments should reference "The National Mine Tailings Pile Site Prospective Purchaser Agreement" and should be forwarded to Jack Generaux, at the above address.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed settlement. The Agency's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101.

**FOR FURTHER INFORMATION CONTACT:** Dave Cozad, Branch Chief, Office of Regional Counsel, United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101, (913) 551-7587.

Dated: June 29, 1998.

### Internet Availability of 1996 Production/Capacity Data in the Sector Facility Indexing Project

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of availability.

**SUMMARY:** The Environmental Protection Agency (EPA) plans to include current environmental information in the Sector Facility Indexing Project (SFIP) as it becomes available. To that end, chemical release and transfer estimates for calendar year 1996 are now available from the Toxics Release Inventory. As the Agency incorporates the 1996 TRI

<sup>4</sup>This supersedes the timing of the enforcement of the downstream oxygen standards discussed in "RFG/Anti-Dumping Questions and Answers, November 12, 1996". See question and answer under topic "SURVEYS 11/12/96".

data into SFIP, EPA is also working to include the 1996 production/capacity data because this is now the most relevant measure of facility size. As a result, the ratio of TRI releases and transfers/production will now include the 1996 production data. The 1996 year production or production capacity data for each of the SFIP facilities are now available on the SFIP Internet website with two exceptions:

(1) If a facility provided adequate documentation to support a change in its 1995 production value, this value is retained for 1996.

(2) If 1996 production/capacity information is not available, but 1995 year information is available and the facility is known to be in full operation.

The production or production capacity data are available for review and comment by the facilities. As was done during the data quality assurance review undertaken in the Fall of 1997, facilities may request a change in the production/capacity values by submitting a written request along with supporting documentation to the address below. Note that the basis of this value will not be changed (e.g., from capacity to actual production). All submissions should be postmarked by July 17, 1998, and sent to: SFIP, 55 Wheeler Street, Cambridge, MA 02138.

**DATES:** The 1996 production/capacity information to be incorporated within the SFIP is currently available for facility review until July 17, 1998.

**ADDRESSES:** Data may be accessed electronically via the Internet at the following address: <http://www.epa.gov/oeca/sfi>

## FEDERAL COMMUNICATIONS COMMISSION

### Commission To Hold Bandwidth en banc Hearing July 9, 1998

June 30, 1998.

The Federal Communications Commission will hold an en banc hearing on Thursday, July 9, 1998, from

11:00 a.m. to 1:00 p.m., in the Commission Meeting Room (Room 856) at 1919 M. Street, NW., Washington, DC.

At the en banc hearing, the Commission will hear from panels of experts regarding bandwidth issues in the last mile of our nation's telecommunications infrastructure and in connectivity to and between our nation's small and rural communities. The panelists will also address how these issues impact the deployment of advanced telecommunications capabilities and broadband technologies in the United States.

The en banc is open to the public, and seating will be available on a first come, first served basis. The meeting can be viewed over George Mason University's Capitol Connection. For information on this service call (703) 993-3100. The en banc will also be carried live on the Internet. Internet users may listen to the real-time audio feed of the en banc by accessing the FCC Internet Audio Broadcast Home Page. Step-by-step instructions on how to listen to the audio broadcast, as well as information regarding the equipment and software needed, are available on the FCC Internet Audio Broadcast Home Page. The URL address for this home page is <http://www.fcc.gov/realaudio/>.

A transcript of the en banc will be available 10 days after the event on the FCC's Internet site. Transcripts may be obtained from the FCC's duplicating contractor, International Transcription Service, 1231 20th Street, NW., Washington, DC 20036, by calling ITS at (202) 857-3800 or faxing ITS at (202) 857-3805. Audio and video tapes of the En banc may be purchased from Infocus, 341 Victroy Drive, Herndon, VA 20170, by calling Infocus at (703) 834-0100 or by faxing Infocus at (703) 834-0111. The URL address for the FCC's Internet Home Page is <http://www.fcc.gov>.
