#### Environmental Impact Statement: City of Chesapeake, VA

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The Federal Highway Administration is issuing this notice to advise the public of its intent to adopt the environmental impact statement prepared by the U.S. Army Corps of Engineers to support a permit application for the construction of Route 168 on new location in the City of Chesapeake and issue their own Record of Decision.

#### FOR FURTHER INFORMATION CONTACT:

Bruce Turner, Planning and Environment Program Manager, Federal Highway Administration, The Dale Building, Suite 205, 1504 Santa Rosa Road, Richmond, Virginia 23229, Telephone 804-281-5111.

**SUPPLEMENTARY INFORMATION:** The U.S. Corps of Engineers (Corps), in cooperation with the Virginia Department of Transportation (VDOT), prepared a draft Environmental Impact Statement (EIS) and made it available to the public in September 1995 for a proposed project to construct four lanes on new location which would alleviate traffic conditions on existing Route 168 in the City of Chesapeake. The Corps assumed responsibility as the lead agency due to their authority over wetlands and to support a permit application and because VDOT had no intention of using any Federal-aid funds in the planning, design or construction of the proposed project. After conducting a joint public hearing with VDOT, the Corps considered all comments they had received and issued a final environmental impact statement in September 1996. On December 16, 1996, the Corps issued their Record of Decision. In June 1998, President Clinton signed authorizing legislation for the Federal Highway Administration known as the Transportation Equity Act of the 21st Century (TEA-21). In TEA-21, the U.S. Congress set-aside Federal-aid funds for the construction of Route 168 in the City of Chesapeake. In response to this set-aside, VDOT has requested that the FHWA accept the Corps' environmental impact statement to support the approval and authorization of these Federal-aid funds for construction of Route 168.

The FHWA has reviewed the Corps' environmental impact statement to determine if it can be readily adopted as

their own for purposes of complying with NEPA. FHWA will coordinate with the Advisory Council on Historic Preservation on cultural resources and develop a Section 4(f) Evaluation as appropriate. In addition, FHWA will solicit comments by circulating the final environmental impact statement and send out letters describing our intentions and changes that have occurred to the project to the appropriate Federal, State, and local agencies, private organizations, and citizens who have previously been involved or are known to have an interest in this proposal. Finally, notice of the document's availability will be published in local newspapers.

To ensure that the full range of issues related to this proposed action are identified and addressed, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action should be directed to the FHWA at the address provided above.

#### Environmental Impact Statement: Frederick County, Maryland

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Revised Notice of Intent.

#### FOR FURTHER INFORMATION CONTACT:

Ms. Pamela Stephenson, Environmental Protection Specialist, Federal Highway Administration, Maryland Division, The Rotunda—Suite 220, 711 West 40th Street, Baltimore, Maryland 21211 (410-962-4342, ext. 145); Mr. Stan Aldridge, Frederick City Engineer, 101 North Court Street, Frederick, Maryland 21701 (301-694-1404); or Mr. Paul F. Maloney, Project Manager, Maryland State Highway Administration, Mail Stop C-301, Project Planning Division, 707 North Calvert Street, Baltimore, Maryland 21202 (410-545-8516).

**SUMMARY:** The FHWA is issuing this notice to advise the public and interested agencies that an environmental impact statement will no longer be prepared for the proposed East Street Extended project in the City of Frederick, Maryland.

**SUPPLEMENTARY INFORMATION:** A Draft Environmental Impact Statement was prepared by the City of Frederick and approved by the Federal Highway Administration, and a public hearing was conducted in 1983. The project was placed on hiatus following the public hearing and was recently reinitiated in a scaled back version as a project being undertaken in cooperation with the City

of Frederick and the Maryland State Highway Administration.

We have determined that an Environmental Impact Statement is no longer the appropriate level of documentation to assess the changes for the revised proposed project because of the reduced level and extent of environmental impacts. Instead, an Environmental Assessment/Section 4(f) Evaluation will be prepared and circulated for public and agency review and comment for 45 days beginning on August 3, 1998. The limits of the proposed project originally extended from north of 9th Street to the vicinity of I-70 (interchange at I-70 and Walser Drive) and included improvements in the existing East Street corridor as well as an extension of East Street on new location from its current terminus to an interchange at I-70 and Walser Drive. The revised proposed project now consists only of the extension to the I-70 interchange. A public hearing will be conducted in late August 1998.

Comments and questions concerning this proposed action should be directed to the FHWA at the address provided above.
