These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

### Food and Drug Administration

#### Food Safety Risk Assessment Clearinghouse; Open Meeting and Technical Workshop

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) and the Joint Institute for Food Safety and Applied Nutrition (JIFSAN) are announcing a meeting entitled "Food Safety Risk Assessment: Users and Needs" and a technical workshop entitled "Food Safety Risk Assessment Clearinghouse: Development of a Framework," open to the public, to discuss the formation of a Food Safety Risk Assessment Clearinghouse. The May 1997 Report to the President on the National Food Safety Initiative described the need to establish a clearinghouse that would collect and catalogue available data and

methodology pertinent to microbial risk-assessment offered by the private sector, trade associations, Federal and State agencies, and international sources. The goals of the clearinghouse would be to consolidate research data and methodology from public and proprietary sources, assist in coordinating research activities, identify gaps in needed research, and assist in the development of microbial risk assessment models. The first meeting will provide an overview of risk assessment, introduce the concept of a risk assessment clearinghouse, and identify and solicit the needs of potential users. The second meeting, in workshop format, will focus on constructing a draft framework document that will define the scope, objectives, mechanisms, and output of the clearinghouse.

**Date and Time:** The meeting will be held on August 7, 1998, 8:30 a.m. to 5 p.m. The technical workshop will be held on October 5 and 6, 1998, 9 a.m. to 5 p.m.
