Notice of Receipt of Requests for Amendments to Delete Uses in Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request for amendment by registrants to delete uses in certain pesticide registrations.

DATES: The Agency will approve these use deletions and the deletions will become effective on or soon after the date of publication.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in the four manufacturing grade chlorpyrifos pesticide registrations listed in Table 1 below. These registrations are listed by registration number, product names/active ingredients and the specific uses deleted. Although the food use sites being deleted have been registered sites for chlorpyrifos products, tolerances have not been established for these commodities under the Federal Food, Drug, and Cosmetic Act (FFDCA). Therefore, under FIFRA section 2(bb), these uses represent an unreasonable adverse effect on the environment, as they would result in human dietary risk from residues resulting from use of a pesticide in or on food inconsistent with the standard under section 408 of FFDCA. As such, the Agency is hereby waiving the 180-day comment period normally given for the deletion of a minor use, in accordance with FIFRA section 6(f)(1)(c). The Agency has determined that, while these actions require publication for the purpose of announcement, a comment period is not warranted.
