

total approximately 8,500 acres, either the Owl Creek MMCA or the Grizzly Creek MMCA would be harvested, and thus, total acreage protected within the remaining MMCAs would actually amount to approximately 7,500 acres (i.e., if the Owl Creek MMCA were harvested total MMCA protection will be 7,586 acres), not 8,500 acres.

Similarly, total acreage of Headwaters Reserve and MMCAs would equal approximately 15,000 acres, not 17,000 acres, as stated in Volume IV, Part B, in the final sentence on page 1, and on page 31, sec. 9.a, second sentence. This error also emanates from the Reid memo to members of the Recovery Team dated June 5, 1998, attached to the HCP at Volume IV, Part B, Section 14. The total had been incorrectly calculated.

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting of the Reef Fish Stock Assessment Panel (RFSAP).

DATES: A meeting of the RFSAP will be held beginning at 1:00 p.m. on Monday, October 5, 1998 and will conclude by 12:00 noon on Thursday, October 8, 1998.

ADDRESSES: The meeting will be held at the NMFS Southeast Fisheries Science Center, 75 Virginia Beach Drive, Miami, FL.

FOR FURTHER INFORMATION CONTACT: Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The RFSAP will meet to review a stock assessment on the status of the red

snapper stock in the Gulf of Mexico prepared by the NMFS.

Based on its review of the red snapper stock assessment, the RFSAP will recommend a range of allowable biological catch (ABC) for 1999, and may recommend management measures to achieve the ABC. In addition, the RFSAP will review the scientific information behind selection of specific values for the red snapper control rule parameters. These parameters will be used by the Council to define new criteria for establishing overfishing and overfished thresholds, and a rebuilding schedule that complies with new provisions of the Magnuson-Stevens Fishery Conservation and Management Act for preventing overfishing and rebuilding overfished stocks that were incorporated into the Act in 1996.

The RFSAP is composed of biologists who are trained in the specialized field of population dynamics. They advise the Council on the status of stocks and, when necessary, recommend a level of ABC needed to prevent overfishing or to effect a recovery of an overfished stock. They may also recommend catch restrictions needed to attain management goals.

The conclusions of the RFSAP will be reviewed by the Council's Standing and Special Reef Fish Scientific and Statistical Committee (SSC) and by the Red Snapper Advisory Panel (RSAP) at meetings to be held in early November. The Council will set a 1999 red snapper total allowable catch (TAC) and associated management measures at its meeting in Galveston, TX on November 9-12, 1998, based on the recommendations of the RFSAP, SSC, and public testimony that will be taken at the Council meeting.

Although other issues not contained in this agenda may come before the RFSAP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation Act, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in the agenda listed in this notice.

A copy of the agenda can be obtained by contacting the Gulf Council (see ADDRESSES).

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see ADDRESSES) by September 28, 1998.

North Pacific Fishery Management Council; Public Meeting; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Clarification and Correction to a public meeting notice.

SUMMARY: The agenda for the meetings of the North Pacific Fishery Management Council's (Council) plenary session was published in the **Federal Register** on September 4, 1998. This document contains a clarification

to the summary and an addition to the previously published agenda.

DATES: The meetings will be held on October 7-12, 1998.

ADDRESSES: The meetings will be held at the Doubletree Hotel-Seattle Airport, 18740 Pacific Highway South, Seattle, WA 98118.

Council address: North Pacific Fishery Management Council, 605 W. 4th Avenue, Suite 306, Anchorage, AK 99501-2252.

SUPPLEMENTARY INFORMATION: The initial agenda was published in the **Federal Register** on September 4, 1998 (63 FR 47269). The following corrections are made:

On page 47269, under **SUMMARY**, add the following paragraph after the first sentence to read as follows:

"During their fishery management report to the Council, NMFS will report on ongoing Section 7 consultations on the inshore/offshore pollock fisheries in the Bering Sea/Aleutian Islands (BSAI) and Gulf of Alaska (GOA), and on the BSAI Atka mackerel fisheries. NMFS will also report their progress on development of a Supplemental Environment Impact Statement for the BSAI and GOA groundfish fisheries."

One page 47270, in the first column, insert agenda 16, after agenda 15, and agenda 16 is correctly added to read as follows:

"16. The Council will review Congressional action (Senate bill 1221) regarding pollock allocations in the Bering Sea/Aleutian Islands and determine what Council actions are necessary."

All other information previously published remains unchanged.

Dated: September 18, 1998.
