SUPPLEMENTARY INFORMATION: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended), the National Park Service, has prepared a revised draft Wild and Scenic River Study and Legislative Environmental Impact Statement for the Lower Sheenjek River in Alaska. Information meetings and public hearings are scheduled in Alaska on the dates and at the times and locations indicated below.

- December 8, Anchorage, Loussac Public Library, 3600 Denali, 7:00 to 9:00 p.m.
- December 9, Fairbanks, Alaska Public Lands Information Center, 250 Cushman Street, Suite 1A, 7:00 to 9:00 p.m.
- December 10, Fort Yukon, Village Office, 7:00 to 9:00 p.m.

The Lower Sheenjek River study corridor (two miles on either side of the river) was evaluated and found to meet the eligibility criteria as it is "free flowing" and contains one or more "outstandingly remarkable values" {cultural (subsistence), wildlife, scenic, and recreation}. It was recommended as a "wild river" due to the lack of development along the river corridor. Alternatives presented in the DEIS explore the impacts of the designation versus non-designation. Alternative A (the proposed action) recommends the Lower Sheenjek River within the Yukon Flats National Wildlife Refuge be recommended for Congressional action for addition to the National Wild and Scenic Rivers System for its

outstandingly remarkable cultural, wildlife, scenic, and recreational values. The segment would be classified as wild, and management of the federal lands would remain with the U.S. Fish and Wildlife Service. Management objectives would focus on keeping the river free from water resource development, major extractive resource development, minimizing the impact of recreation use on the rivers' outstandingly remarkable values, and generally maintaining the undeveloped character of the river corridor. No expenditures for administrative or public use facilities would be required under this alternative, although some funds would be spent on corridor administration (estimated at less than \$5,000 per year). No land acquisition is needed. Alternative B (no action) would continue existing conditions on the refuge. The river's resource values would not receive any additional protection or management attention relative to other rivers or resources in the Yukon Flats National Wildlife Refuge.

Dated: October 8, 1998.
