Background

The Treasury Department issued antidumping findings on animal glue from Germany (42 FR 64116, December 22, 1977), railway track equipment from Austria (43 FR 6937, February 17, 1978), impression fabric from Japan (43 FR 22344, May 25, 1978), and rayon staple fiber from Finland (44 FR 17156, March 21, 1979). In addition, as a courtesy to interested parties, the Department sent letters, via certified and registered mail, to each party listed on the Department's most current service list for these proceedings to inform them of the automatic initiation of a sunset review on these findings and orders.

No domestic interested parties in any of the sunset reviews of these findings
