### Foreign-Trade Zones Board

[Docket 47-98]

#### Foreign-Trade Zone 41—Milwaukee, WI, Application for Subzone Status; Mercury Marine (Inc.) (Marine Propulsion Products) Fond du Lac and Oshkosh, WI

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Foreign Trade Zone of Wisconsin, Ltd., grantee of FTZ 41, requesting special-purpose subzone status for the marine propulsion

products manufacturing facilities of Mercury Marine (Inc.), located in Fond du Lac and Oshkosh, Wisconsin. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on October 30, 1998.

The proposed subzone would consist of 11 total sites, 10 (totaling 2.5 million sq.ft., manufacturing/warehousing) of which are in Fond du Lac (Fond du Lac County): Site 1 (12 acres)—Plant 95, 325 Larsen Drive; Site 2 (9 acres)—Plant 4, 98, 660 South Hickory Street; Sites 3 and 4 (29 acres)—Plant 4, 660 South Hickory Street; Site 5 (21 acres)—Plant 17, W6207 Pioneer Road, Site 6 (11 acres)—Plant 17A, 771 South Military Road; Site 7 (79 acres)—Plants 3, 10, 12, 15, 52/"Main Plant", W6250 Pioneer Road; Site 8 (1 acre)—Adjacent south to Site 3 at Pioneer Road; Site 9 (2 acres)—Water Street Plant, along Fond du Lac River at Water Street; Site 10 (13 acres)—Plant 36, N7480 County Road UU, Site 11 (10 acres/100,000 sq.ft., warehouses)—Plants 33 and 64, located at 445-505 Marion Road in Oshkosh (Winnebago County), Wisconsin. The facilities (2,500 employees) are used to produce marine outboard and jet pump engines (up to 450 horsepower) for the U.S. market and export. The application indicates that foreign-sourced parts and materials comprise some 20 percent of the finished marine engines' material value, including: oil, alcohols, adhesives, plastic casings, adhesive sheets/plates, ethylene bags, packaging materials, rubber profiles/tubes/hoses/gaskets, belts, valves, ball/roller bearings, oil seals, antifreeze, articles of wood, paper books and labels, decals, twine, textile fabrics with PVC, fiberglass, iron or non alloy tubes/pipes/profiles/fittings, chain, fasteners, springs, wire/cable, base metal mountings, internal parts of marine engines, gears, ignition systems, electrical subcomponents, compasses, gauges, measuring and controlling instruments, starters, flywheels, pulleys, shafts, electric motors, propellers, electromagnetic couplings, electronic components, pumps, and filters (duty rates: free-9.8%).

FTZ procedures would exempt Mercury Marine from Customs duty payments on the foreign items used in production for export. On domestic shipments, the company would be able to choose the duty rates during Customs entry procedures that apply to finished marine engines (free, 2.7%) for the foreign inputs noted above. The application indicates that the savings from FTZ procedures would help

improve the facilities' international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 8, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 25, 1999).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

#### Foreign-Trade Zone 8—Toledo, OH, Redesignation of Foreign-Trade Subzone 8F

Based on a request by the Toledo-Lucas County Port Authority, grantee of FTZ 8, for a minor modification of the grant of authority for FTZ Subzone 8F at the BP Exploration & Oil Inc., refineries in Toledo and Lima, Ohio (Board Order 822, 61 FR 27048, 5/30/96), Subzone 8F—Site 2 (the Lima refinery site) is redesignated as Subzone 8G. The Lima refinery has been sold to Clark USA and will be operated separately. The authority for the site, now designated as Subzone 8G, would continue to be based on the FTZ Board's authorization in Board Order 822, including its special conditions and restrictions.

[Docket 48-98]

#### Foreign-Trade Subzone 167B—Polaris Industries, Inc.; Expansion of Manufacturing Authority (Internal-Combustion Engines) Osceola, Wisconsin

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Polaris Industries, Inc. (Polaris), operator of FTZ Subzone 167B, at the Polaris plant, Osceola, Wisconsin, requesting an expansion of the scope of manufacturing authority to include a new end product (motorcycle engines) and additional internal-combustion engine manufacturing capacity under FTZ procedures within Subzone 167B. It was formally filed on November 3, 1998.

Subzone 167B was approved by the Board in 1997 with activity granted for the manufacture of small internal-combustion engines for snowmobiles, personal water craft, all-terrain vehicles (Board Order 940, 62 FR 66601, 12-19-97).

Polaris has installed new manufacturing capacity at the Osceola plant (84 employees) used to produce a new model motorcycle engine (V-twin, 1,507 cc) and now requests that its FTZ manufacturing authority be extended to include the increased motorcycle engine capacity. The company plans to produce up to 20,000 motorcycle engines annually, which would be shipped to Polaris' Spirit Lake, Iowa, plant to equip motorcycles assembled there. The new engine manufacturing activity will involve casting, machining, finishing, and assembly using domestic and foreign materials and components.

The motorcycle engine production will utilize foreign-sourced pistons and cylinders (2.6% duty rate) (representing 5% of the finished engines' ex-plant value) and all other components from domestic sources.

FTZ procedures would exempt Polaris from Customs duty payments on the foreign components used in export activity (less than 5% of shipments). On its domestic sales, the company would be able to elect the duty rate that applies to finished engines (duty free) for the foreign components noted above. The application indicates that the savings

from FTZ procedures help improve Polaris' international competitiveness.

The application has requested review under § 400.32(b)(1) of the FTZ Board regulations based on the previous Board approvals.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 24, 1998. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 8, 1999.)

A copy of the application will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230.

Dated: November 3, 1998.
