Alcoa Fujikura Ltd., Electro-Mechanical Products Owosso, Michigan; Notice of Revised Determination on Reopening

On October 20, 1998 the Department issued a Negative Determination Regarding Eligibility to apply for worker adjustment assistance, applicable to workers and former workers of Alcoa Fujikura Ltd., Owosso, Michigan. The notice was published in the **Federal Register** on November 10, 1998 (62 FR 63078).

By letter of November 16, 1998, the company requested administrative reconsideration regarding the Department's denial. New information provided by Alcoa Fujikura shows that company imports of radio frequency interference units increased during the time period relevant to the investigation.

Workers at the subject firm are engaged in employment related to the production of radio frequency interference units. The workers are not separately identifiable by product line.

Sales, production and employment at the Owosso, Michigan production facility declined during the relevant time period. The plant will close by the end of December, 1998.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with radio frequency interference units contributed importantly to the declines in sales or production and to the total or partial separation of workers of Alcoa Fujikura Ltd., Electro-Mechanical Products, Owosso, Michigan. In accordance with the provisions of the Act, I make the following certification:

"All workers of Alcoa Fujikura, Electro-Mechanical Products, Owosso, Michigan, who became totally or partially separated from employment on or after August 27, 1997

are eligible to apply for worker adjustment assistance under Section 223 of the Trade Act of 1974."

Signed in Washington, DC this 23rd day of November 1998.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.
