ENVIRONMENTAL PROTECTION AGENCY

[FRL-5948-3]

LCP Chemicals Georgia Site/ Brunswick, Georgia; Notice of Proposed Settlement

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed settlement.

SUMMARY: Under Section 122(h)(1) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the Environmental Protection Agency (EPA) has proposed to settle claims for response costs at the LCP Chemicals Georgia Site (the "Site") located in Brunswick, Georgia, with AlliedSignal, Inc., Atlantic Richfield Company, and Georgia Power Company of Georgia. EPA will consider public comments on the proposed settlement for thirty days. EPA may withdraw from or modify the proposed settlement should such comments disclose facts or considerations which indicate the proposed settlement is inappropriate, improper, or inadequate. Copies of the proposed settlement are available from: Ms. Paula V. Batchelor, U.S. Environmental Protection Agency, Region IV, Program Services Branch, Waste Management Division, 61 Forsyth Street, SW, Atlanta, Georgia 30303, (404) 562-8887.

Written comments may be submitted to Mrs. Ann Mayweather-Boyd at the above address within 30 days of the date of publication.

Dated: December 10, 1997.

Richard D. Green,

Acting Director, Waste Management Division.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by FCC for Extension Under Delegated Authority 5 CFR 1320 Authority, Comments Requested

February 4, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

The FCC is reviewing the following information collection requirements for possible 3-year extension under delegated authority 5 CFR 1320, authority delegated to the Commission by the Office of Management and Budget (OMB).

DATES: Written comments should be submitted on or before April 20, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, Room 234, 1919 M St.,

NW., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0286.

Title: Section 80.302, Notice of discontinuance, reduction, or impairment of service involving a distress watch.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Business or other for-profit, individuals or households, non-profit institutions, state and local governments.

Number of Respondents: 160.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 160 hours.

Frequency of Response: On occasion.

Total Annual Cost: N/A.

Needs and Uses: The reporting requirement contained in Section 80.145 is necessary to ensure that the U.S. Coast Guard is timely notified when a coast station, which is responsible for maintaining a listening watch on a designated marine distress and safety frequency, discontinues, reduces or impairs its communications services. This notification allows the Coast Guard to seek an alternate means of providing radio coverage to protect the safety of life and property at sea or object to the planned diminution of service. The information is used by the U.S. Coast Guard district office nearest to the coast station. Once the Coast Guard is aware that such a situation exists, it is able to inform the maritime community that radio coverage has or will be affected and/or seek to provide coverage of the safety watch via alternate means. When appropriate the Coast Guard may file a petition to deny an application.

OMB Approval Number: 3060-0221.

Title: Section 90.155 Time in which station must be placed in operation.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit, state, local or tribal government, not-for-profit institutions.

Number of Respondents: 55.

Estimated Time Per Response: 1 hour per response.

Total Annual Burden: 55 hours.

Frequency of Response: On occasion.

Needs and Uses: The information collection requirement contained in Section 90.155 is needed to provide flexibility to state and local governments that would normally be unable to meet the requirement of placing their radio station in operation within 8 months. The information is used to evaluate if the exception to the 8 month requirement is warranted. If the information was not collected the Commission's information regarding actual loading of frequencies would be inaccurate.

OMB Number: 3060-0361.

Title: Section 80.29 Change during license term.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; Business or other for-profit; Not-for-Profit Institutions; State, Local or Tribal Government.

Number of Respondents: 250.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 250 hours.

Frequency of Response: On occasion.

Needs and Uses: The information is used by the FCC to update the coast and ship station license files and data base concerning current name and address of licensees. Information concerning changes in the names of vessels is also used to update the ITU List of Ship Stations.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

February 5, 1998.

SUMMARY: Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the

Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated information techniques or other forms of information technology.

DATES: Written comments should be submitted on or before April 20, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0501.

Title: Section 76.206, Candidate rates.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents: 10,750

Estimated Time Per Response: .5-10 hours.

Total Annual Burden to Respondents: 139,750 hours, calculated as follows: There are approximately 10,750 cable systems in the nation. We estimate that in any given year, candidates for public office will be interested in seeking origination cablecast time from approximately half of these systems (5,375). We estimate that these cable systems will be required to make the various advertising rate disclosures set forth in Section 76.206 to an average of 4 candidates. The average burden on systems to disclose this information is estimated to be .5 hours per candidate. 5,375 systems x 4 candidates x .5 hours = 10,750 hours. We estimate that each cable system will calculate its lowest unit charge semi-annually with an average burden of 10 hours per station. 5,375 systems x 2 calculations x 10 hours = 107,500 hours. Systems are also required to periodically review their advertising records throughout the

election period to determine whether compliance with Section 76.206 requires that candidates receive rebates or credits. We estimate that cable systems will review their records an average of 2 times throughout the election period, undergoing a burden of 2 hours per review. 5,375 systems x 2 reviews x 2 hours = 21,500 hours.

Total Annual Cost to Respondents:

Postage and stationery costs associated with the various requirements contained in Section 76.206 are estimated to be \$5 per system. 5,375 systems x \$5 = \$26,875.

Needs and Uses: On December 12, 1991, the Commission adopted Report and Order, FCC 91-403, MM Docket No. 91-168, in the matter of codification of the Commission's political programming policies. The Report and Order adopted affirmative disclosure requirements obliging cable television systems to disclose and make available to candidates all discount privileges available to commercial advertisers, including the lowest unit charge for the different classes of time sold. The Report and Order added Section 76.206 to the Commission's rules. Section 76.206 requires cable television systems to disclose any station practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time (immediately preemptible, preemptible with notice, fixed, fire sale, and make good). It also requires cable systems to calculate the lowest unit charge. The disclosure requirements contained in Section 76.206 serve to ensure that cable system licensees provide timely, accurate and complete information on rates and sales practices to legally qualified candidates for public office who are interested in origination cablecasting.

OMB Approval Number: 3060-0313.

Title: Section 76.207, Political file.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents: 5,375.

Estimated Time Per Response: .5-10 hours.

Total Annual Burden to Respondents: 5,375 hours, calculated as follows: There are approximately 10,750 cable systems in the nation. We estimate that in any given year, candidates for public office will be interested in seeking origination cablecast time from approximately half of these systems (5,375). We estimate these systems will be required to keep a political file for an average of 4 candidates at an estimated recordkeeping burden of .25 hours per candidate. 5,375 systems x 4 candidates x .25 hours = 5,375 hours.
