Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13), the Health Resources and Services Administration

(HRSA) publishes periodic summaries of proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1891.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Project to Assess Ethnicity/Race and Services to Bi/Multilingual Populations in Community and Migrant Health Centers—NEW

The Office of Minority and Women's Health (OMWH) in the Bureau of

Primary Health Care (BPHC), Health Resources and Services Administration (HRSA), recognizes that full understanding of the ethnicity of clients and providers and the provision of language appropriate services are vital to guaranteeing full and effective health care. OMWH proposes to conduct a voluntary survey, the purpose of which will be two-fold: (1) To obtain detailed data on the ethnic/racial composition of health center users and providers; and (2) to collect information about the composition and provision of bi/multilingual services. This information will be collected from a sample of approximately 150 health centers.

These data will provide HRSA with information which will be used to make resource and staffing decisions related to reducing barriers to health care often faced by ethnic/racial minorities and by non- or limited-English-speaking populations.

The burden estimate for this project is as follows:

Form	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
Survey	150	1	150	2	300

Proposed Project: Health Professions Student Loan (HPSL) Program and Nursing Student Loan (NSL) Program Administrative Requirements (Regulations and Policy) (OMB No. 0915-0047)—Extension

The regulations for the Health Professions Student Loan (HPSL) Program and Nursing Student Loan (NSL) Program contain a number of reporting and recordkeeping requirements for schools and loan applicants. The requirements are essential for assuring that borrowers are aware of rights and responsibilities, that schools know the history and status of each loan account, that schools pursue aggressive collection efforts to reduce default rates, and that they maintain adequate records for audit and assessment purposes. Schools are free to use improved information technology to manage the information required by the regulations.

The burden estimate is as follows:

Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of

proposed projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1891.

Comments are Invited on

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Health Status, Behaviors, and Health Service Perceptions of Non-College Educated and College Educated African American Women—New

The Office of Minority and Women's Health (OMWH) in the Bureau of

Primary Health Care (BPHC), Health Resources and Services Administration (HRSA) awarded funding for a pilot study which will develop information about the design of a sample appropriate to determine the health status, behaviors, and health service perceptions of African American women who are: (1) college educated, and (2) low income, non-college educated. The pilot study will be used to evaluate the interview instrument and to discover the practical issues and feasibility of sampling low income African American women from the databases of community health centers in three test locations. The goal is to assess the instrument, the sample sources, the procedures, and the response rates and to determine the extent to which data can be collected in a systematic and comprehensive manner. The pilot study is the first step in a much larger nationwide effort to build a significant data set containing detailed information on health status, health indicators, and health behaviors of African American women.

The burden estimate for the pilot study is as follows:

Respondent	Number of respondents	Responses per respondent	Total responses	Hours per response (minutes)	Total hour burden
College Educated	60	1	60	40	40
Non-College Educated	180	1	180	40	120
Total	240	240	160

National Practitioner Data Bank Announcement of Self-Query Fee

The Health Resources and Services Administration (HRSA), Department of Health and Human Services (DHHS), is

announcing a ten dollar fee for health care practitioners who request information about themselves (self-queries) from the National Practitioner Data Bank (NPDB).

The current fee structure for requests for information (queries) by authorized entities was announced in the **Federal Register** on January 29, 1998 (63 FR 4460).

In accordance with the Final Rule published elsewhere in this issue, the Department now is exercising its authority to impose a fee for self-queries.

The NPDB is authorized by the Health Care Quality Improvement Act of 1986 (the Act), title IV of Public Law 99-660, as amended (42 U.S.C. 11101 *et seq.*). Section 427(b)(4) of the Act authorizes the establishment of fees for the costs of processing requests for disclosure and for providing such information.

Final regulations at 45 CFR part 60 set forth the criteria and procedures for information to be reported to and

disclosed by the NPDB. Section 60.3 of these regulations defines the terms used in this announcement.

In determining any changes in the amount of the user fee, the Department uses the criteria set forth in § 60.12(b) of the regulations, as well as allowable costs pursuant to the DHHS Appropriations Act of 1999, Pub. L. 105-277, enacted October 19, 1998. This Act requires that the Department recover the full costs of operating the NPDB through user fees. Paragraph (b) of the regulations states:

The amount of each fee will be determined based on the following criteria:

- (1) Use of electronic data processing equipment to obtain information—the actual cost for the service, including computer search time, runs, printouts, and time of computer programmers and operators, or other employees,
- (2) Photocopying or other forms of reproduction, such as magnetic tapes—actual cost of the operator's time, plus the cost of the machine time and the materials used,
- (3) Postage—actual cost, and
