

designed to identify such suspicious activity as trading ahead, frontrunning, trading against, crossing orders, and wash trading. Since the introduction of side-by-side (simultaneous Project A and open outcry) trading of T-Bonds in September 1998, CBT has begun using a specialized exception report designed to identify certain trading ahead violations that use both the Project A and open outcry markets. The CBT has stated that it intends to develop systems and programs that integrate surveillance of its Project A and open outcry markets. The Exchange should be diligent in pursuing this process.

From January, 1997 through December, 1998, the Exchange initiated 21 investigations into all types of possible abuses on Project A, nine of which had been closed as of December, 1998. One of those nine was closed within the four-month objective set forth in Commission Regulation 8.06, and another three were closed within four to six months. Thus, only 44 percent of those Project A investigations opened and closed during 1997-98 were closed within six months. If CBT cannot complete its Project A investigations within the objective set by Regulation 8.06, it should provide the reasons why such investigations require more than four months to complete. Based on examination of its computerized surveillance reports, CBT initiated four dual trading-related investigations during that period, one of which resulted in referral to a disciplinary committee. As of December 1998 that case was still pending. In other Project A-related disciplinary actions, the Exchange levied \$20,000 in fines, imposed one ten-day suspension, and issued four reprimands.

(d) Commitment of Resources—The Commission finds that CBT meets the requirements of Section 5a(b)(1)(E) by committing sufficient resources for its trade monitoring system relating to Project A, including automating elements of such trade surveillance system, to be effective in detecting and deterring violations. CBT also maintains an adequate staff to investigate and to prosecute disciplinary actions.

Accordingly, on this date, the Commission hereby grants CBT's Petition for exemption from the dual trading prohibition for trading on Project A of its electronically traded U.S. Treasury Bond futures contracts.

For this exemption to remain in effect, CBT must demonstrate on a continuing basis that it meets the relevant statutory and regulatory requirements. The Commission will monitor continued compliance through its rule enforcement review program and any

other information it may obtain about CBT's program.

The provisions of this Order shall be effective on the date on which it is issued and shall remain in effect unless and until it is revoked in accordance with Section 8e(b)(3)(B) of the Commodity Exchange Act, 7 U.S.C. 12e(b)(3)(B). If other CBT contracts electronically traded on Project A become affected contracts after the date of this Order, the Commission may expand this Order in response to an updated petition that includes those contracts.

*It is so ordered.*
