Office of Energy Efficiency and Renewable Energy

Optional Preproposal Process for the National Industrial Competitiveness Through Energy, Environment and Economics (NICE³) Program

AGENCY: Golden Field Office, Department of Energy (DOE).

ACTION: Notice. Optional preproposal process for potential applicants under the DOE NICE³ program solicitation.

SUMMARY: The Office of Industrial Technologies of the Department of Energy is funding a State Grant Program entitled National Industrial Competitiveness through Energy, Environment, and Economics (NICE³). The goals of the NICE³ Program are to improve energy efficiency, promote cleaner production, and to improve competitiveness in industry.

SUPPLEMENTARY INFORMATION:

Background

The intent of the NICE³ program is to fund projects that have completed the research and development stage and are ready to demonstrate a fully integrated commercial unit. Eligible applicants for funding include any authorized agency of the 50 States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, and any territory or possession of the United States. Local governments, State and private universities, private non-profits, private businesses, and individuals, who are not eligible as direct applicants, must work with the appropriate State agencies in developing projects and forming participation arrangements. The state applicant is required to have an industrial partner to be eligible for grant consideration.

The Catalog of Federal Domestic Assistance number assigned to this program is 81.105. It is anticipated that up to \$6 million in Federal funds will be made available in FY 2000 by DOE for the May 1999 solicitation. 50% cost sharing is required by all applicants and/or cooperating project participants. The DOE share for each award shall not exceed \$425,000. The industrial partner may receive a maximum of \$400,000 in DOE funding. A maximum of \$25,000, or 10% of the total amount to industry, whichever is less, may be used to support the state applicant's cost share, if any, for costs associated with technology transfer/dissemination, marketing, etc.

Preproposal

Prior to issuance of the solicitation, the DOE offers potential applicants a chance to submit to the Golden Field Office a brief description of their proposed project. The submissions should not exceed two pages and should adhere to the format laid out in the preproposal format. DOE's technical staff will review these abstracts and provide constructive feedback to the potential applicant within a two week period. The submission of a preproposal abstract is not mandatory for submitting an application under the May 1999 solicitation. The DOE reviews and comments under the preproposal process will not be used by DOE in evaluating or awarding applications under the solicitation. All abstracts must be submitted through a state agency.

DATES: A brief description of the proposed project can be submitted to the Golden Field Office on or before April 2, 1999.

March 2, 1999.

Take notice that on February 25, 1999, Florida Gas Transmission Company (FGT) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, effective April 1, 1999, the following tariff sheets:

Thirty-Second Revised Sheet No. 8A
Twenty-Third Revised Sheet No. 8A.01
Twenty-Fourth Revised Sheet No. 8A.02
Twenty-Eighth Revised Sheet No. 8B
Twenty-First Revised Sheet No. 8B.01

FGT states that Section 27 of the General Terms and Conditions (GTC) of its Tariff provides for the recovery by FGT of gas used in the operation of its system and gas lost from the system or otherwise unaccounted for. The fuel reimbursement charges pursuant to Section 27 consist of the Fuel Reimbursement Charge Percentage (FRCP), designed to recover current fuel usage on an in-kind basis, and the Unit Fuel Surcharge (UFS), designed to recover or refund previous under or overcollections on a cash basis. Both the FRCP and the UFS are applicable to Market Area deliveries and are effective for seasonal periods, changing effective each April 1 (for the Summer Period) and each October 1 (for the Winter Period).

FGT states that it is filing to establish an FRCP of 2.76% to become effective April 1, 1999 based on the actual company fuel use, lost and unaccounted for volumes, and Market Area deliveries for the period from April 1, 1998 through September 30, 1998. FGT further states that it is filing to establish a Summer Period UFS of <\$0.0050> per MMBtu to become effective April 1, 1999.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations.
