

ingredient pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. In addition to the currently registered uses, Sovran Fungicide will be used on apples, grapes, pears, and other pome fruits and pecans. Notice of receipt of this application does not imply a decision by the Agency on the application.

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Public Record and Electronic Submissions

The official record for this notice, as well as the public version, has been established for this notice under docket number [OPP-30472] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official notice record is located at the address in "ADDRESSES" at the beginning of this document.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comment and data will also be accepted on disks in Wordperfect 5.1/6.1 or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-30472]. Electronic comments on this notice may be filed online at many Federal Depository Libraries.

Authority: 7 U.S.C. 136.

Biotechnologies for Horticulture, Inc.; Application to Register a Pesticide Product

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of an application to register the pesticide product Ethylbloc, containing a new active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by April 9, 1999.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP-30473] File Symbol (71297-R) to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Comments and data may also be submitted electronically to: opp-docket@epamail.epa.gov. Follow the instructions under "SUPPLEMENTARY INFORMATION." No Confidential Business Information (CBI) should be submitted through e-mail.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. The public docket is available for public inspection in Rm. 119 at the Virginia address given above, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Driss Benmhend, Biopesticides and Pollution Prevention Division (7511C), 401 M St., SW., Washington, DC 20460. Office location/telephone number and e-mail address: Rm. 902W37, CM #2, 1921 Jefferson Davis Hwy, Arlington, VA, 703-308-9525; e-mail: benmhend.driss@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA received an application from Biotechnologies for Horticulture, Inc., 751 Thunderbolt Road, Walterboro, SC 29488, to register the pesticide product Ethylbloc (EPA file symbol 71297-R), containing the active ingredient 1-methylcyclopropene at 0.43%, an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. Ethylbloc is intended for use only on ornamental, non-food crops. Notice of receipt of this application does not imply a decision by the Agency on the application.

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Chlorine gas; Availability of Reregistration Eligibility Decision Document for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces availability of and starts a 60-day public comment period for the Reregistration Eligibility Decision document (RED) for the active ingredient Chlorine gas. The RED for this chemical is the Agency's formal regulatory assessment of the health and environmental database of the subject chemical and presents the Agency's determination regarding which pesticidal uses are eligible for reregistration.

DATES: Written comments on these decisions must be submitted by May 10, 1999.

ADDRESSES: Three copies of comments, identified with the docket control number [OPP-34180] and the case number (listed in this document), should be submitted to: by mail: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, Virginia.

Comments may also be submitted electronically by following the instructions under Unit III. of this document. No Confidential Business

Information (CBI) should be submitted through e-mail.

Information submitted as a comment in response to this notice may be claimed confidential by marking any part or all of that information as confidential business information (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice (including comments and data submitted electronically). The public docket and docket index, including printed paper versions of electronic comments, which does not include any information claimed as CBI will be available for public inspection in room 119 at the address given above, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

To request a copy of the RED, or RED Fact Sheet, contact the Public Information and Records Integrity Branch, Rm. 119 at the address given above, or call (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: For technical questions on the RED listed, contact Patrick Dobak at (703) 308-8180 or, e-mail: dobak.pat@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Electronic Availability

Electronic copies of this document and various support documents are available from the EPA home page at the Federal Register--Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov.fedrgstr/>).

Electronic copies of the REDs and RED Fact Sheets can be downloaded from EPA's World wide web site at <http://www.epa.gov/oppsrrd1/REDs/>.

II. Reregistration Eligibility Decisions

The Agency has issued a Reregistration Eligibility Decision (RED) document for Chlorine gas. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting a reregistration program to reevaluate existing pesticides to ensure they meet current scientific and regulatory standards. The data base to support the reregistration of this chemical is substantially complete.

Please note that the Chlorine Gas RED was finalized and signed prior to August 3, 1996. On that date, the Food Quality Protection Act of 1996 (FQPA) became effective, amending portions of both the pesticide law (FIFRA) and the food and

drug law (FFDCA). Therefore, this RED does not address any issues raised by FQPA. Since chlorine gas is exempt from tolerances, the tolerance assessment procedures required under FQPA are not applicable.

The Agency is not formally performing an FQPA review as part of this RED. However, registrants whose products are registered for use for drinking water treatment are required to perform two 2-generation reproduction studies and three developmental studies on three particular halogenated water disinfection byproducts. These studies will better characterize the reproductive and developmental risks that may be associated with exposure to these particular compounds. These compounds are bromodichloromethane, dichloroacetic acid, and dibromoacetic acid.

Chlorine products registered for use in non-residential swimming pools, pulp and paper mill processes, and industrial food processing plants and cooling towers are being reclassified as Restricted Use Pesticides due to chlorine's extreme acute toxicity plus many associated human poisoning incidents. These products must bear Restricted Use Pesticide labeling no sooner than October 1, 2000, and no later than April 1, 2001.

Chlorine products registered for drinking water, sewage and wastewater treatment uses and residential pool use will be considered unclassified. The Agency does not support classifying commercial applications of residential pools as a Restricted Use because few related accidents or incidents have been reported. Additionally for water treatment, applicators already are trained and certified by the states to perform these uses.

The Chlorine Gas RED also is requiring extensive label revisions for all products. This is intended to address the potential for exposure to chlorine gas and to facilitate enforcement actions in cases of misuse and improper distribution. The specific labeling requirements included in the RED are also available as an attachment to the RED Fact Sheet.

All registrants of products containing the active ingredient listed in this document, have been sent this RED and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt. Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally-
