

I. Background

DDMAC is currently reissuing guidances pertaining to prescription drug advertising and promotional labeling. These guidances have been issued to the pharmaceutical industry at various times since 1970, usually as letters or guidance papers. In the **Federal Register** of March 28, 1997 (62 FR 14912), FDA published a notice listing all previous guidances and indicating whether the agency believed they were obsolete or needed revision. Under section II.B.3 of that document, FDA listed a guidance, issued in April 1994, that needed revision. The guidance addressed placement, size, and prominence of the proprietary (brand) name and established (generic) name in advertising and labeling of prescription drug products.

This draft revision of that guidance for industry is entitled "Product Name Placement, Size, and Prominence in Advertising and Promotional Labeling." It has been revised in the following ways: (1) It modifies the format of the guidance issued in April 1994; (2) it adds new sections to discuss the applicability of the guidance to audiovisual, broadcast, and computer-based advertisements, and promotional labeling; (3) it adds a new section to discuss the placement, size, and prominence of the proprietary (brand) name and established (generic) name for products with two or more active ingredients; and (4) it documents the applicability of this guidance to animal prescription drugs and biologic products.

This draft guidance for industry represents the agency's current thinking on proprietary and established name placement, size, and prominence in advertising and promotional labeling. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirement of the applicable statute, regulations, or both.

II. Electronic Access

Copies of this draft guidance are available on the Internet at "<http://www.fda.gov/cder/guidance/index.htm>" or "<http://www.fda.gov/cber/guidelines.html>" or "<http://www.fda.gov/cvm>".

Interested persons may, on or before May 11, 1999, submit to the Dockets Management Branch (address above) written comments on the draft guidance. Two copies of any comments are to be

submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document.
