

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AGL WI E5 Watertown, WI [Revised]

Watertown Municipal Airport, WI
(Lat. 43°10'11" N., long. 88°43'24" W.)

That airspace extending upward from 700 feet above the surface within an 8.4-mile radius of the Watertown Municipal Airport.

* * * * *

Issued in Des Plaines, Illinois on March 18, 1999.

John A. Clayborn,

Acting Manager, Air Traffic Division.

14 CFR Part 71

[Airspace Docket No. 99–ASO–3]

Amendment of Class E Airspace; Toccoa, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This notice amends Class E airspace at Toccoa, GA. The VHF Omnidirectional Range (VOR) or Global Positioning System (GPS) Runway (RWY) 20 Standard Instrument Approach Procedure (SIAP) has been amended to the Toccoa RG Letourneau Field Airport. As a result, additional controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to accommodate the SIAP and for Instrument Flight Rules (IFR) operations at Toccoa RG Letourneau Field Airport. An extension

via the 023 degree radial of the Foothills (ODF) VHF Omnidirectional Range/ Tactical Air Navigation (VORTAC) for the VOR or GPS RWY 20 SIAP is necessary. The length of the Class E airspace extension northeast of the VORTAC is 7 miles, and the width of the airspace extension is 6.8 miles. This amendment also reflects the correct geographical position coordinates for the Toccoa RG Letourneau Field Airport and the Habersham County Airport; which are minor technical changes as the position of the airports is unchanged.

EFFECTIVE DATE: 0901 UTC, July 15, 1999.

FOR FURTHER INFORMATION CONTACT:

Nancy B. Shelton, Manager, Airspace Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–5627.

SUPPLEMENTARY INFORMATION:

History

On February 16, 1999, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by amending Class E airspace at Toccoa, GA, (64 FR 7558). This action provides adequate Class E airspace for IFR operations at Toccoa RG Letourneau Field Airport. Designations for Class E airspace extending upward from 700 feet or more above the surface are published in FAA Order 7400.9F, dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR part 71.1. The class E designation listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends Class E airspace at Toccoa, GA, for the Toccoa RG Letourneau Field Airport. This amendment also corrects the geographical position coordinates for the Toccoa RG Letourneau Field Airport and the Habersham County Airport; which are minor technical changes as the position of the airports is unchanged.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally

current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation, as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward from 700 feet or More above the Surface of the Earth.

* * * * *

ASO GA E5 Toccoa, GA [Revised]

Toccoa RG Letourneau Field Airport
(Lat. 34°35'38" N., long. 83°17'45" W.)
Foothills VORTAC
(Lat. 34°41'45" N., long. 83°17'52" W.)
Habersham County Airport
(Lat. 34°30'03" N., long. 83°33'18" W.)

That airspace extending upward from 700 feet or more above the surface of the earth within a 10-mile radius of Toccoa RG Letourneau Field Airport and within 3.4 miles each side of the 023 degree radial from the Foothills VORTAC, extending 7 miles northeast of the VOR and within an 8.2-mile radius of Habersham County Airport.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 98-AGL-81]

Modification of Class E Airspace; Pontiac, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class airspace at Pontiac, IL. A Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 24 has been developed for Pontiac Municipal Airport.

Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approaches. This action increases the radius of the existing controlled airspace for this airport.

EFFECTIVE DATE: 0901 UTC, July 15, 1999.

FOR FURTHER INFORMATION CONTACT: Michelle M. Behm, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Monday, February 1, 1999, the FAA proposed to amend 14 CFR part 71 to modify E airspace at Pontiac, IL (64 FR 4795). The proposal was to add controlled airspace extending upward from 700 to 1200 feet AGL to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998,

which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Pontiac, IL to accommodate aircraft executing the proposed GPS Rwy 24 SIAP at Pontiac Municipal Airport by increasing the radius of the existing controlled airspace at the airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AGL IL E5 Pontiac, IL [Revised]

Pontiac Municipal Airport, IL
(Lat. 40°55'25" N., long. 88°37'32" W.)

That airspace extending upward from 700 feet above the surface within an 7.2-mile radius of the Pontiac Municipal Airport.

* * * * *

Issued in Des Plaines, Illinois on March 18, 1999.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 99-AGL-1]

Modification of the legal description of the Class E Airspace; Sault Ste Marie, ON

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This notice modifies the legal description Class E airspace at Sault Ste Marie, ON. The airspace description for the Sault Ste Marie Airport, ON, Canada, incorrectly describes the northwest extension of the controlled airspace as the northeast extension. Controlled airspace extending upward from the surface is needed to contain aircraft executing instrument approach procedures. This action corrects the legal description of the existing controlled airspace for this airport in order to eliminate confusion regarding the actual configuration of the airspace.

EFFECTIVE DATE: 0901 UTC, July 15, 1999.

FOR FURTHER INFORMATION CONTACT: Michelle M. Behm, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:

History

On Monday, February 1, 1999, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Sault Ste Marie, ON (64 FR 4794). The proposal was to correct the legal description of the existing controlled airspace to reflect the actual configuration of that controlled airspace.
