In reply refer to:
I-99/03077

Honorable J. Dennis Hastert
Speaker of the House of
Representatives
Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 99-12 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Air Force's proposed Letter(s) of Offer and Acceptance (LOA) to Israel for defense articles and services estimated to cost \$2.0 billion. Soon after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

A.R. KELTZ
ACTING DIRECTOR

- (vii) **Date Report Delivered to Congress:** 26 MAR 1999

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION**Israel - F-16C/D Aircraft**

The Government of Israel has requested a possible sale of 50 F-16C/D Block 50/52 aircraft; 50 AN/APG-68(V)X radar; and 30 each LANTIRN navigation and targeting pods. All aircraft will be configured with either the F100-PW-229 or F110-GE-129 engines by direct commercial sale; Night Vision Goggle compatible cockpits; conformal fuel tanks; and the capability to employ the AIM-120, AIM-9, and a wide variety of air-to-surface munitions. Associated support equipment, software development/integration, spares and repair parts, flight test instrumentation, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel services, and other related requirements to ensure full program supportability will also be provided. The estimated cost is \$2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Israel needs these aircraft to augment its present operational inventory and to enhance its air-to-air and air-to-ground self defense capability. The F-16 enhances Israel's ability to defend itself and supports U.S. regional objectives for Israel's national security and maintenance of Israel's qualitative edge. Israel, which already has F-16 aircraft in its inventory, will have no difficulty absorbing these additional aircraft.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Lockheed Martin Corporation, Orlando, Florida. Under this sale, the contractor will incur offset obligations under an existing industrial cooperation agreement.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel to Israel. A number of U.S. contractor representatives, to be determined during program implementation, will be required in Israel to conduct Contractor Engineering Technical Services (CETS) for a three-year period after aircraft delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
