

that the 1993 and 1996 grants were less than 0.50 percent of total domestic sales in the year that they were given. As a result, we have expensed the sum of PFM's grants provided in 1996 and included the total benefit of 0.42 percent *ad valorem* in the net subsidy rate for the 1996 review period.

Moreover, we have determined that the grant provided in 1993 to Fafer's other affiliate, CD, would have been expensed in the 1993 review period and have not included CD's 1993 benefit in the net subsidy rate for the 1996 POR.

Amended Final Results of Review

As a result of the amended net subsidy calculations, we determine the net subsidy for Fafer to be 0.69 percent *ad valorem* for the period January 1, 1996 through December 31, 1996.

We will instruct the U.S. Customs Service (Customs) to assess countervailing duties of 0.69 percent *ad valorem* on shipments of the subject merchandise from Fafer exported on or after January 1, 1996, and on or before December 31, 1996. The Department will also instruct Customs to collect cash deposits of estimated countervailing duties of 0.69 percent of the f.o.b. invoice price on all shipments of the subject merchandise from Fafer as amended by this determination. The amended deposit requirements are effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice and shall remain in effect until publication of the final results of the next administrative review.

Because the URAA replaced the general rule in favor of a country-wide rate with a general rule in favor of individual rates for investigated and reviewed companies, the procedures for establishing countervailing duty rates, including those for non-reviewed companies, are now essentially the same as those in antidumping cases, except as provided for in section 777A(e)(2)(B) of the Act. The requested review will normally cover only those companies specifically named. See 19 CFR 351.213(b). Pursuant to 19 CFR section 351.212(c), for all companies for which a review was not requested, duties must be assessed at the cash deposit rate, and cash deposits must continue to be collected at the rate previously ordered. As such, the countervailing duty cash deposit rate applicable to a company can no longer change, except pursuant to a request for a review of that company. See *Federal-Mogul Corporation and The Torrington*

Company v. United States, 822 F.Supp. 782 (CIT 1993) and *Floral Trade Council v. United States*, 822 F.Supp. 766 (CIT 1993). Therefore, the cash deposit rates for all companies except those covered by this review will be unchanged by the results of this amended final results of administrative review.

We will instruct Customs to continue to collect cash deposits for non-reviewed companies at the most recent company-specific or country-wide rate applicable to the company. Accordingly, the cash deposit rates that will be applied to non-reviewed companies covered by this order will be the rate for that company established in the most recently completed administrative proceeding conducted under the URAA. If such a review has not been conducted, the rate established in the most recently completed administrative proceeding pursuant to the statutory provisions that were in effect prior to the URAA amendments is applicable. See *Final Affirmative Countervailing Duty Determination: Certain Steel Products From Belgium* 58 FR 37273. These rates shall apply to all non-reviewed companies until a review of a company assigned these rates is requested. In addition, for the period January 1, 1996 through December 31, 1996, the assessment rates applicable to all non-reviewed companies covered by this order are the cash deposit rates in effect at the time of entry.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR section 355.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination in accordance with sections 751(a)(1) and 777(i)(1) of the Act (19 U.S.C. 1675(a)(1) and 19 U.S.C. 1677f(i)(7)).

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Waiver of Match Requirements and an Increase in Allowable Cost Per Full-Time Equivalent (FTE) for the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (Corporation) announces a waiver of the Corporation's match requirements for the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands applying for FY 1999 AmeriCorps funds. In addition, the Corporation announces an increase in the allowable cost per FTE for organizations in the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands applying for FY 1999 AmeriCorps funds; the Corporation will consider applications with a cost per FTE of up to \$14,500, provided that the necessity for the increase is clearly documented in the proposal. Applications for FY 1999 AmeriCorps funds are due April 30, 1999.

FOR FURTHER INFORMATION CONTACT: Gayle Hilleke, (202) 606-5000, ext. 431. TDD (202) 565-2799. For individuals with disabilities, information will be made available in alternative formats upon request.

SUPPLEMENTARY INFORMATION: The National and Community Service Act of 1990, as amended (NCSA) (42 U.S.C. 12501 *et seq.*), authorizes the Corporation for National and Community Service (Corporation) to make grants to support national service programs including AmeriCorps.

1. Waiver of Match Requirements

The NCSA and the Corporation's grant provisions require applicants for AmeriCorps funds to provide match for

funds they receive from the Corporation. However, in light of 48 U.S.C. 1469a, which requires that departments and agencies waive "any requirement for local matching funds under \$200,000 (including in-kind contributions) required by law" for American Samoa, Guam, the Virgin Islands, and the Northern Mariana Islands, the Corporation waives the AmeriCorps matching requirements for those territories.

For example, if a state commission or alternative administrative entity from one of the territories listed above applies for administrative funds under 42 U.S.C. 12576, that state commission or alternative administrative entity will not have to contribute the initial 15% and eventual 50% match.

Please note that this waiver is available only to state commissions or alternative administrative entities of the Territories listed above—programs or organizations in the Territories applying directly to the Corporation for funds will still be required to meet the match requirements in the NCSA and their grant provisions.

2. Increase in Allowable Cost Per FTE

Additionally, the Corporation has sent out application packets announcing the availability of 1999 formula funds for Territories. According to the application instructions, no grant may exceed the total number of FTE AmeriCorps members multiplied by \$11,250. This notice is to inform applicants from American Samoa, Guam, the Virgin Islands, and the Northern Mariana Islands, that the Corporation will consider applications with a cost per FTE of up to \$14,500, provided that the necessity for the increase is clearly documented in the proposal.

For example, if you wish to apply for a program supporting 20 full-time AmeriCorps members, the maximum grant award you may receive is 20×\$14,500, or \$290,000. If you apply for 15 full-time members and 10 part-time members, the maximum grant award would also be 20×\$14,500, or \$290,000.

Applicants should keep in mind that proposals requesting a lower cost per member might be deemed more competitive, as this is a factor in our evaluation criteria. Further, whether the Corporation may approve a budget of \$14,500 per member will depend upon whether the average cost per FTE requested for all program applicants, including those submitted pursuant to this notice, meets the \$11,250 cost per FTE target.
