

gallons of approved purchases. A deadline for requesting a supplemental refund is a necessary, interim step to the completion of the crude oil overcharge refund proceeding, which has been pending over 12 years. In order to make any final payment in the proceeding, we need to determine the number of eligible recipients and the total amount available after current supplemental payments are made. When we issued original refund decisions, we advised refund recipients to keep us informed of address changes, but some refund recipients failed to do so. We are concerned that the addresses and other information for the refund recipients that did not request a supplemental payment may not be current. For example, the recipient may have a new address or the recipient may no longer exist—an individual applicant may have died or a business entity may have ceased operations. Setting a deadline for all supplemental payments will allow us to identify those recipients that are either unreachable or that are not interested in receiving a supplemental refund. Those recipients will forfeit any further refund, which will then allow us to calculate a final payment for all remaining recipients, provided sufficient crude oil overcharge funds are left over.

Based on the foregoing, we intend to mail notice of a January 31, 2000 deadline to the 10,000 refund recipients with approved purchases of 62,500 gallons or more that have not yet requested a supplemental refund. As stated above, a refund recipient with approved purchases of 62,500 gallons or more that does not request a supplemental refund by January 31, 2000 will not be eligible for any further payment from crude oil overcharge funds. The deadline does not apply to small refund recipients, i.e., those with approved purchases of less than 62,500 gallons. We have concluded that mailing notice to such refund recipients is not appropriate, given the small size of the refund (less than \$50) and the age of the addresses in our data base. Small refund recipients continue to have the option of requesting a supplemental refund until the conclusion of the crude oil overcharge refund proceeding.
