DEPARTMENT OF JUSTICE

Bureau of Prisons

Notice of Intent To Prepare a Draft Environmental Impact Statement (DEIS) for Housing Criminal Alien Population in Non-Federal Low-Security Correctional Facilities

AGENCY: Bureau of Prisons, Department of Justice.

ACTION: Notice of intent to prepare a Draft Environmental Impact Statement (DEIS).

SUMMARY:

Proposed Action: The mission of the U.S. Department of Justice, Federal Bureau of Prisons (Bureau) is to protect society by confining offenders in the controlled environments of prison and community-based facilities that are safe, humane, cost efficient, and appropriately secure, and that provides work and other self-improvement opportunities to assist offenders in becoming law-abiding citizens. In addition, the Bureau supports the U.S. Marshals Service in its efforts to house the growing number of unsentenced federal detainees, and the Immigration and Naturalization Service in the rapidly increasing requirements for the detention of sentenced and unsentenced aliens awaiting hearings and/or release

or repatriation to their countries of origin. The Bureau accomplishes its mission through the appropriate use of community correction, detention, and correctional facilities that are either:

Federally owned and operated;
Federal owned and non-federally operated; and
Non-federally owned and operated.

Historically, the Bureau evaluated the establishment and operation of both federal and contract correctional facilities under the National Environmental Policy Act of 1969, 42 U.S.C. 4321 (NEPA) on a case-by-case basis. This individualized approach to project evaluation carries with it the advantages of site-specific evaluation, significant public participation, and tailored mitigation plans. However, it is the Bureau's experience that the evaluation of low-security institutions has many common issues that must be separately addressed for each new project. The cost, time, and effort expended in examining these common issues are magnified and can become impractical in the context of awarding contracts for the operation and/or construction of non-federal low security facilities. Therefore, the Bureau proposes to establish national procedures in accordance with NEPA for the award and monitoring of contracts for low-security non-federally owned and operated detention and prison facilities.

In recent years, the Bureau has faced unprecedented growth in its inmate population. It is projected that this growth will accelerate as a result of programs implemented by the Immigration and Naturalization service regarding sentenced and unsentenced aliens. Correctional institutions at the low-security level will be impacted immediately because sentenced and unsentenced aliens are typically housed at the low-security level. Due to the current shortage of beds, especially at the low-security level, the Bureau has been forced to manage its population by designating minimum and medium-security level institutions as low-security institutions, which, in turn, creates a domino effect for all other security levels. The projected population of sentenced and unsentenced aliens will only exacerbate these population pressures.

As a result, the Bureau is seeking flexibility in managing its current shortage of beds in the low-security level as well as the anticipated sharp and/or short-term increases at this security level. Such management flexibility would have to meet population capacity needs in a timely

fashion, conform with federal law, and maintain fiscal responsibility, all while successfully attaining the mission of the Bureau. Management flexibility includes the appropriate contracting of non-federal facilities. In order to do so, the Bureau over the next several months, will be preparing one or more Request for Proposals to be sent to prospective contractors requesting proposals to house in private contract facilities low-security adult non-U.S. citizen males with 60 months or less remaining on their sentences.

To ensure compliance with NEPA, the Bureau is undertaking preparation of a Draft Programmatic Environmental Impact Statement (DPEIS) to determine the potential impacts of this proposal. Topics to be studied as part of the DPEIS includes, but are not limited to: topography, geology/soils, hydrology, biological resources, utility services, transportation services, cultural resources, land uses, social and economic factors, hazardous materials, air and noise quality, among others.

Alternatives: In developing the DPEIS, the options of "no action," "alternative housing arrangements," and "preferred alternative" will be fully and thoroughly examined.

Scoping Process: During preparation of the DPEIS, there will be numerous opportunities for public involvement. Towards that end, the Bureau will host Scoping Meetings to which all interested persons are invited to attend. The purpose of the Scoping Meetings is to afford the public, regulatory agency representatives, and elected officials an opportunity to learn about and voice their interests and concerns regarding the privatization mandate. The Scoping Meetings are being held to provide for timely public comments and understanding of federal plans and programs with possible environmental consequences as required by NEPA. The Scoping Meetings will be held:

7:00 p.m., Thursday, April 29, 1999, at the Solis Cohen Auditorium of Thomas Jefferson University, 1020 Locust Avenue, Jefferson Alumni Hall, 1020 Locust Avenue, Philadelphia, Pennsylvania
7:00 p.m., Tuesday, May 4, 1999, at the Hall of State Auditorium at Fair Park, 3939 Grand Avenue, Dallas, Texas
7:00 p.m. Thursday, May 6, 1999, at the Marina Village Conference Center Captain's Room, 1936 Quivira Way, San Diego, California

Inquiries or written comments may also be directed to the Bureau through June 1, 1999.

Draft Programmatic EIS Preparation: Public notice will be provided concerning the availability of the Draft

Programmatic EIS for public review and comment.

ADDRESSES: Questions concerning the proposed action and the DPEIS can be answered by: David J. Dorworth, Chief, Site Selection and Environmental Review Branch, Federal Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534, Telephone 1-800-658-1117, Facsimile 202-616-6024, e-mail: siteselection@bop.gov

Dated: April 19, 1999.
