This process is conducted in accordance with 5 Code of Federal Regulation, part 1320.10. Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of Regulatory Affairs, Attention: Department of Justice Desk Officer, Washington, DC, 20530. (2) Evaluate the accuracy of the agency's/components' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The proposed collection is listed below:

Problem Solving Partnerships; Analysis and Assessment Surveys

(1) *Type of information collection.* Extension of a currently approved collection.

(2) *The title of the form/collection.* Problem Solving Partnerships; Analysis and Assessment Surveys

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection.* Form: COPS 29/01. Office of Community Oriented Policing Services, United States Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract.* Local law enforcement agencies that received grant funding for the Problem Solving Partnerships (PSP) grant from the COPS Office will be surveyed regarding the activities and outcomes of the analysis and assessment phases of the grant project.

The agencies implementing the problem-solving process through their PSP grants vary significantly in terms of population size, primary problems, location, partners, evaluators, and demographics. The agencies and their partners are working together to target either specific property crimes, violent crimes, problems associated with drugs and/or alcohol, or crimes related to public disorder.

The COPS Office is looking to provide documentation that may stimulate the promotion of problem solving as a way of addressing crime/disorder problems for both current and future grantees looking to implement the problem-solving approach. Copies of the survey instruments to be used by the contractor to obtain information from the PSP grantees are attached. The *Analysis Survey* will be distributed to grantees once OMB approval is obtained. The *Assessment Survey* will be distributed to grantees at a later date, once agencies have completed evaluating the impact of their tailor-made responses. Information obtained from these surveys will be disseminated to other departments to promote the adoption of problem-solving approaches.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond.* Each survey, the Analysis Survey and the Assessment Survey, will be administered one time: Approximately 470 respondents per survey administration, at 55 minutes per respondent per survey (including record-keeping).

(6) *An estimate of the total public burden (in hours) associated with the collection.* Approximately 861.6 hours.

Public comment on this proposed information collection is strongly encouraged.

Dated: April 20, 1999.

DEPARTMENT OF LABOR

Office of the Secretary

Bureau of International Labor Affairs; Request for Information

This document is a request for information regarding a study being conducted by the Department of Labor on the economic benefits that would result from the elimination of abusive and exploitative child labor and increased enrollment of children in school. The Department is now accepting written information on this subject matter from all interested parties preparing written submissions.

The Department of Labor is currently undertaking a Congressionally-mandated study on the economic benefit to individual countries and to possible global benefits (pursuant to Senate Report 105-300, p.35, accompanying the Department of Labor, Health and Human Services, and Education and Related Agencies Appropriation Bill, 1999). The report for this annual Appropriations law reads, in part:

The Committee recognizes the value of the reports completed by the Bureau of International Labor Affairs in recent years documenting the incidence of international child labor in various industries and countries, and some of the innovative approaches to reduce the use of abusive and exploitative child labor such as codes of conduct and labeling initiatives. While obstacles such as poverty and limited family income contribute to child labor, it is clear that child labor imposes large economic cost by continuing the cycle of poverty and denying educational opportunities to millions of children. Consequently, the Committee requests that the Bureau undertake a study on the economic benefits that could be realized from the elimination of abusive and exploitative child labor and the increased enrollment of these children in school. The study should look at the economic benefits to individual countries and to possible global benefits, in particular U.S. trade, that would result from the elimination of abusive and exploitative child labor. The analysis could include appropriate case or country studies, as appropriate.

Information provided through public submission will be considered by the Department of Labor in preparing its

report. Materials submitted should be confined to the specific topic of the study. In particular, the Department's Bureau of International Labor Affairs is seeking written submissions on the topics noted below:

1. Factors that determine whether a child works, particularly the relationship between the availability and quality of schooling and the incidence of child labor.

2. Description of government policy decisions that affect the quality or availability of schooling, either to all children or to specific groups.

3. Studies on the economic cost associated with child labor and possible return from transitioning children from work to school.

This notice is a general solicitation of comments from the public.

DATES: Submitters of information are requested to provide two (2) copies of their written submission to the Child Labor Program by 5:00 p.m., on May 26, 1999.

ADDRESSES: Written testimony should be addressed to Kevin Willcutts at the International Child Labor Program, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, NW, Room S-5303, Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: Kevin Willcutts, International Child Labor Program, Bureau of International Labor Affairs at (202)208-4843; fax (202)219-4923. The Department of Labor's prior child labor reports can be accessed on the Internet at <http://www.dol.gov/dol/ilab/public/programs/iclp/> or can be obtained from the International Child Labor Program.

Signed at Washington, DC this 20th day of April, 1999.

Andrew J. Samet,

Deputy Under Secretary.
