General Electric Company, Power Systems Plant, Fitchburg, MA; Notice of Revised Determination on Reconsideration

On November 18, 1998, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on December 4, 1998 (63 FR 67142).

The Department initially denied TAA to workers of General Electric Company, Power Systems Plant, Fitchburg, Massachusetts, producing steam turbines because the "contributed importantly" group eligibility requirement of section 222(3) of the Trade Act of 1974, as amended, was not met.

On reconsideration, the Department surveyed for additional bids lost by the subject facility. The survey revealed that the subject firm lost significant bids to foreign sources and that the steam turbines being build under those lost bids were manufactured offshore and imported into the U.S.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with steam turbines contributed importantly to the declines in sales or production and to the total or partial separation of workers of General Electric Company, Power Systems Plant, Fitchburg, Massachusetts. In accordance with the provisions of the Act, I make the following certification:

All workers of General Electric Company, Power Systems Plant, Fitchburg, Massachusetts who became totally or partially separated from employment on or after July 22, 1997 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC, this 16th day of April 1999.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.
