Accordingly, for all the reasons described above, the Commission concludes that the full thirty-day post-publication notice period is not required.

V. Required Findings of Fact

Pursuant to Compact Article V, Section 12, the Compact Commission hereby finds:

1. That the public interest continues to be served by establishment of minimum milk prices to dairy farmers under Article IV, as amended to: (1) permit the Commission discretion, in any given month, to waive entirely or to set the rate of the administrative assessment at the current rate of 3.2 cents, or less, per hundredweight of fluid milk; and (2) require handlers make payment to the Commission by electronic funds transfer, if the total amount due is greater than \$25,000.

2. That the previously established level price of \$16.94 (Zone 1) to dairy farmers under Article IV, is unaffected by these amendments, and will continue to assure that producers supplying the New England market receive a price sufficient to cover their costs of production and will elicit an adequate supply of milk for the inhabitants of the regulated area and for manufacturing purposes.

3. That the major provisions of the order, other than those fixing minimum milk prices, are and continue to be in the public interest and are reasonably designed to achieve the purposes of the order.

4. That the terms of the proposed amendments are approved by producers pursuant to a producer referendum required by Article V, Section 13.
