

Implementation of on-the-ground management actions is generally moving forward and refuge objectives are being accomplished. However, some of the management direction provided in the comprehensive plan needs to be updated. New and amended laws (e.g., the Refuge Improvement Act), new or revised regulations and policies, and changes in circumstances (e.g., federal management of subsistence hunting on Alaska refuges) need to be included in the management policies and guidelines. Management direction for approximately 175,000 acres of land acquired since the comprehensive plan was completed also needs to be incorporated into the plan. In addition, we believe that a re-evaluation of the wild and scenic river study (completed in the late 1970's) and the wilderness review (part of the original comprehensive plan/EIS) is necessary, given the amount of time that has passed since the original recommendations were made. Therefore, the Service has decided that a revision of the Kodiak comprehensive plan is necessary.

This notice formally begins the revision of the comprehensive plan for the Kodiak National Wildlife Refuge. As the first step, we are soliciting comments on the issues to be addressed in the revised plan/EIS. Comments should be specific and should address refuge resources, how we manage those resources, and how the public is affected. In addition to soliciting public comments through this notice, public comments will be solicited through a newsletter to be mailed to approximately 2,000 individuals and organizations on our mailing list. The comprehensive plan revision will be addressed during a series of community meetings to be held in Akhiok, Karluk, Larsen Bay, Old Harbor, Ouzinkie, and Port Lions in March and April 1999. Meetings will be scheduled during May in Kodiak and Anchorage. Once issues are identified, we will develop options to address the issues and prepare a draft comprehensive plan/EIS. This document is scheduled to be released for public review in the fall of 2000. After public review and comment on the draft comprehensive plan/EIS, including public hearings, a final comprehensive plan/EIS will be prepared and released.
