Certain Welded Carbon Steel Pipes And Tubes From India: Notice of Final Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On February 8, 1999, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on certain welded carbon steel pipes and tubes from India. This review covers one manufacturer/exporter, Rajinder Pipes Ltd. The period of review is May 1, 1997, through April 30, 1998. We gave interested parties an opportunity to comment on the preliminary results of review but received no comments. Therefore, these final results of review have not changed from those presented in the preliminary results of review, in which we applied total adverse facts available.

EFFECTIVE DATE: May 4, 1999.

FOR FURTHER INFORMATION CONTACT:

Larry Tabash at (202) 482-5047 or Robin Gray at (202) 482-4023, Import

Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR Part 351 (1998).

Background

On February 8, 1999, we published in the **Federal Register** (64 FR 6046) the preliminary results of the review of this order. We gave interested parties an opportunity to comment on our preliminary results. We received no comments. In the preliminary results, we determined the weighted-average dumping margin for the period May 1, 1997, through April 30, 1998, to be 87.39 percent, which is the highest calculated margin of any company in a prior segment of this proceeding. This rate was calculated for the 88/89 administrative review of this order. The Department has now completed the administrative review in accordance with section 751 of the Act.

Scope of Review

The products covered by this review include circular welded non-alloy steel pipes and tubes, of circular cross-section, with an outside diameter of 0.372 inches or more but not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipe, though they may also be called structural or mechanical tubing in certain applications. Standard pipes and tubes are intended for the low-pressure conveyance of water, steam, natural gas, air and other liquids and gases in plumbing and heating systems, air-conditioner units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing, and for protection of electrical wiring, such as conduit shells.

The scope is not limited to standard pipe and fence tubing or those types of mechanical and structural pipe that are

used in standard pipe applications. All carbon-steel pipes and tubes within the physical description outlined above are included in the scope of this order, except for line pipe, oil-country tubular goods, boiler tubing, cold-drawn or cold-rolled mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished rigid conduit.

Imports of the products covered by this review are currently classifiable under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although, the HTSUS item numbers are provided for convenience and customs purposes, the Department's written description of the scope of this review remains dispositive.

Final Results of the Review

Because we received no comments from interested parties, we have determined that no changes to the preliminary results are warranted for purposes of these final results. The weighted-average dumping margin for the period May 1, 1997, through April 30, 1998, is as follows:

Company	Margin percent
Rajinder Pipes Ltd	87.39

The Department will issue appraisal instructions directly to the Customs Service. Furthermore, the following deposit requirements will be effective upon publication of these final results for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date as provided by section 751(a)(1) of the Act: (1) The cash-deposit rate for the reviewed company will be the rate listed above; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash-deposit rate for all other manufacturers or exporters will continue to be 7.08 percent, the "All Others" rate made effective by the LTFV investigation. The deposit requirements shall remain in effect until publication of the final

results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 20, 1999.

Richard W. Moreland,
Acting Assistant Secretary for Import Administration.
