## **Environmental Management Site-**Specific Advisory Board, Rocky Flats

**AGENCY:** Department of Energy. **ACTION:** Notice of Open Meeting.

**SUMMARY:** This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Rocky Flats. Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of these meetings be announced in the Federal Register.

DATES: Monday, May 17, 1999: 6:30 P.M.—9:30 p.m.

ADDRESSES: College Hill Library, Front Range Community College, 3705 West 112th Avenue, Westminister, CO 80030-2140.

FOR FURTHER INFORMATION CONTACT: Ken Korkia, Board/Staff Coordinator, Rocky Flats Citizens Advisory Board, 9035 North Wadsworth Parkway, Suite 2250, Westminister, CO 80021; Phone (303) 420-7855; FAX (303) 420-7579.

## SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE in the areas of environmental restoration, waste management, and related activities. The Rocky Flats Citizen Advisory Board (RFCAB) is dedicated to providing informed recommendations and advice to the agencies (Department of Energy, Colorado Department of Public Health and Environment and the Environmental Protection Agency), government entities and other interested

parties on policy and technical issues and decisions related to cleanup, waste management and associated activities. The Board is dedicated to public involvement, awareness and education on Rocky Flats issues.

## **Tentative Agenda**

Continued discussion on low level mixed waste disposition issues:

- Transportation.
- Comparison of disposal sites.
- Information on the Deer Trail facility in eastern Colorado.
- Initiation of preparation of vision statement on Board's position(s) on disposition of low level and low level mixed waste.

Other Board business may be conducted as necessary.

Public Participation: The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Ken Korkia at the address or telephone number listed above. Requests must be received 5 days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of 5 minutes to present their comments at the beginning of the meeting. This notice is being published less than 15 days before the date of the meeting due to programmatic issues that needed to be resolved.

Minutes: The minutes of this meeting will be available for public review and copying at the Public Reading Room located at the office of the Rocky Flats Citizens Advisory Board, 9035 North Wadsworth Parkway, Suite 2250, Westminister, CO 80021; phone (303) 420-7855. Hours of operation for the Public Reading Room are 9 a.m. to 4 p.m. Monday through Friday. Minutes will also be made available by writing or call Deb Thompson at the address or telephone number listed above.

Issued at Washington, DC on April 28, 1999.

#### **DEPARTMENT OF ENERGY**

Office of Science; Fusion Energy **Sciences Advisory Committee;** Correction

**AGENCY:** Department of Energy.

**ACTION:** Notice of Open Meeting Correction.

SUMMARY: On April 12, 1999, the Department of Energy published a notice of open meeting announcing a meeting of the Fusion Energy Sciences Advisory Committee (64 FR 17650). In that notice, the meeting was scheduled for May 19-21, 1999. Today's notice is announcing that the meeting will only take place on May 20-21, 1999. A revised tentative agenda follows:

#### **Tentative Agenda**

Thursday, May 20, 1999

8:30 a.m. Presentations of Princeton Plasma Research Laboratory (PPPL) Research Activities

10:30 a.m. Break

10:45 a.m. Presentations of PPPL Research Activities continue

12:15 p.m. Lunch

1:30 p.m. Presentations of Research Activities at Universities (R. Fonck)

3:15 p.m. Break

3:30 p.m. Inertial Confinement Fusion/ Inertial Fusion Energy Activities at the Naval Research Laboratory (S. Bodner)

4:15 p.m. Fusion Energy Sciences Advisory **Committee Discussions** 

5:15 p.m. Public Comment

6:00 p.m. Adjourn

Friday, May 21, 1999

8:30 a.m. Status Report on Proof-of-Principle Experiments Review 10:00 a.m. Break

10:15 a.m. Status Report on Proof-of-Principle Experiments Review 11:15-12:30 Tour of PPPL Facilities

Issued in Washington, D.C. on April 27,

#### Rachel M. Samuel,

Deputy Advisory Committee Management Officer.

## **DEPARTMENT OF ENERGY**

Office of Energy Efficiency and Renewable Energy: State Energy **Advisory Board, Open Meeting** 

**SUMMARY:** This notice announces a meeting of the State Energy Advisory Board (STEAB). The Federal Advisory Committee Act (Pub. L. No. 92-463; 86 Stat. 770) requires that public notice of these meetings be announced in the Federal Register.

**DATES:** May 13, 1999 from 9:00 am to 5:00 pm and May 14, 1999 from 9:00 am to 12:00 pm.

**PLACE:** National Renewable Energy Laboratory (NREL), Golden, Colorado.

FOR FURTHER INFORMATION CONTACT: William J. Raup, Office of Building Technology, State, and Community Programs, Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE), Washington, DC 20585, Telephone 202/586–2214.

#### SUPPLEMENTARY INFORMATION:

Purpose of the Board: To make recommendations to the Assistant Secretary for Energy Efficiency and Renewable Energy regarding goals and objectives and programmatic and administrative policies, and to otherwise carry out the Board's responsibilities as designated in the State Energy Efficiency Programs Improvement Act of 1990 (Pub. L. No. 101–440).

*Tentative Agenda:* Briefings on, and discussions of:

- Deploying technology from DOE laboratories to the States;
- How STEAB's role to help facilitate the market of energy efficient and renewable energy technologies can be assisted by coordination with National Council of State Legislatures;
- Federal efforts to market energy efficiency and renewable energy technologies.

Public Participation: The meeting is open to the public. Written statements may be filed with the Board either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact William J. Raup at the address or telephone number listed above. Requests to make oral presentations must be received five days prior to the meeting; reasonable provision will be made to include the statements in the agenda. The Chair of the Board is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. This notice is being published less than 15 days before the date of the meeting due to programmatic issues that had to be resolved prior to publication.

Minutes: The minutes of the meeting will be available for public review and copying within 30 days at the Freedom of Information Public Reading Room, 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, DC, on April 27, 1999.

# Federal Energy Regulatory Commission

[Docket No. CP99-322-000]

## El Paso Natural Gas Company; Notice of Application

April 28, 1999.

Take notice that on April 16, 1999, El Paso Natural Gas Company (El Paso), Post Office Box 1492, El Paso, Texas, 79978, filed an application at Docket No. CP99-322-000, pursuant to Section 7(c) of the Natural Gas Act (NGA) and Section 157.5, et seq., of the Federal Energy Regulatory Commission's (Commission) Regulations Under the NGA, for a certificate of public convenience and necessity authorizing the construction and operation of certain lateral pipeline and metering facilities, hereinafter referred to as the Willcox Lateral. El Paso states that construction of the Willcox Lateral will allow the transportation and delivery of natural gas to two points along the International Boundary between the United States and Mexico in Cochise County, Arizona, all as more fully set forth in the application on file with the Commission and open to public

El Paso states that the Comision
Federal de Electricidad (CFE) has an
existing power plant near the City of
Hermosillo, Sonora, Mexico and
recently completed a Request For
Proposal (RFP) for a second power plant
near Hermosillo. Additionally, CFE is
scheduled to close an RFP in May 1999
for a new power plant near the City of
Agua Prieta, Sonora, Mexico, referred to
as the El Fresnal Power Plant. These
three power plants will require natural
gas as fuel to generate electricity.

Thus, El Paso is proposing to construct the Willcox Lateral to serve this present and future power plant infrastructure in Northern Sonora, Mexico. El Paso claims that the Willcox Lateral will have a design capacity of 130,000 Mcf per day and will provide the necessary facilities to permit the transportation of natural gas to two points of interconnection at the International Boundary. Once delivered to these new delivery points, El Paso says that gas will be transported to the

existing and proposed power plants in or near Hermosillo and Agua Prieta, Mexico, as well as other potential markets in Northern Mexico.

Specifically, the proposed Willcox Lateral facilities, all located in Cochise County, Arizona, will consist of a 20" O.D. lateral line commencing at approximately milepost 407.1 on El Paso's California Line and First Loop Line on the suction side of the Willcox Compressor Station extending south approximately 55.7 miles which then bifurcates into two 16" O.D. east and west branch lateral lines with metering facilities near the terminus of each branch lateral line. The west branch lateral line extends southwesterly for approximately 2.9 miles, terminating near Monument 90 on the International Boundary (the 20" O.D. lateral line and the 16" O.D. west branch lateral line constitute Line No. 2163). The east branch lateral line extends southeasterly for approximately 12.2 miles, terminating at a point southwest of Douglas, Arizona at the International Boundary between the United States and Mexico (Line No. 2164). The Willmex Delivery Point is to be located near the terminus of Line No. 2163 adjacent to the existing Monument 90 Meter Station, and the El Fresnal Delivery Point is to be located near the terminus of Line No. 2164.

El Paso indicates that it has estimated the cost of constructing the Willcox Lateral to be approximately \$30,215,000. El Paso requests authorization no later than December 31, 1999 in order to meet an in-service date of September 1, 2000.

El Paso states that, in support of the Willcox Lateral, and to demonstrate market support for the Willcox Lateral, it has entered into three separate, but mutually exclusive, firm TSAs providing for the delivery of natural gas to the El Fresnal Power Plant and a fourth firm TSA providing for transportation service to the second Hermosillo Power Plant. El Paso states that it is currently negotiating contracts for the existing Hermosillo Power Plant.

Based on the cost of the proposed Willcox Lateral facilities, El Paso calculated a separate incremental rate attributable to the cost of service for the proposed Willcox Lateral. The incremental reservation rate for the Willcox Lateral is proposed to be \$0.1467 per dth on a daily basis and is referred to as the "Willcox Lateral Facilities Charge." El Paso proposes the calculated incremental rate as the tariff rate applicable to firm transportation service on the Willcox Project.

Any person desiring to be heard or to make any protest with reference to said
