Medicare Program; Meetings of the Negotiated Rulemaking Committee on Ambulance Fee Schedule

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of meetings.

SUMMARY: In accordance with section 10(a) of the Federal Advisory Committee Act, this notice announces the dates and locations for the third and fourth meetings of the Negotiated Rulemaking Committee on the Ambulance Fee Schedule. These meetings are open to the public.

SUPPLEMENTARY INFORMATION: Section 4531(b)(2) of the Balanced Budget Act (BBA), Public Law 105-33, added a new section 1834(l) to the Social Security Act (the Act). Section 1834(l) of the Act mandates implementation, by January 1, 2000, of a national fee schedule for payment of ambulance services furnished under Medicare Part B. The fee schedule is to be established through negotiated rulemaking. Section 4531(b)(2) also provides that in establishing such fee schedule, the Secretary will—

- Establish mechanisms to control increases in expenditures for ambulance services under Part B of the program;

- Establish definitions for ambulance services that link payments to the type of services furnished;

- Consider appropriate regional and operational differences;

- Consider adjustments to payment rates to account for inflation and other relevant factors; and

- Phase in the fee schedule in an efficient and fair manner.

The Negotiated Rulemaking Committee on the Ambulance Fee Schedule has been established to provide advice and make recommendations to the Secretary with respect to the text and content of a proposed rule that establishes a fee schedule for the payment of ambulance services under Part B of the Medicare program.

The Committee held its second meeting on April 12, 13, and 14, 1999. At this meeting the Committee heard presentations from HCFA staff. The first presenter, a representative from HCFA's Actuarial and Health Cost Analysis Group, described the methodology used in determining how the payment cap under the fee schedule was calculated. The second presenter, a member of the HCFA negotiated rulemaking team, presented historical Medicare hospital and supplier ambulance billing data. The non-government members Committee finalized the private agreement with Project Hope to obtain ambulance cost data and reached consensus on the statements of the issues to be negotiated. Each Committee member presented the member's constituency's interests. Work began on the criteria for evaluating options for the fee schedule.

During the May meeting the Committee will work toward achieving consensus on the interests and on the criteria to be considered in evaluating options for the fee schedule. Discussions will then begin on the options.

The announced future meetings are open to the public without advanced registration. Interested parties can file statements with the Committee. *Mail written statements to the following address: Federal Mediation and Conciliation Service, 2100 K Street, N.W., Washington, D.C. 20427, Attention: Lynn Sylvester.* Location of future meetings will be published in the **Federal Register** at a later date.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7283]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency
Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Chief, Hazards Study Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (email) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of

the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.
