

improvements in self-rated organizational performance and several organization status measures.

Analysis of this information will assist CSAT in documenting the numbers and types of participants accessing these services, and describing the extent to which participants improve in their knowledge, skill, and ability to manage their organizations in this changing business environment. This type of information is crucial to support CSAT in complying with GPRA reporting requirements and will inform future development of technical assistance activities.

The assessment design for technical assistance participants will be a pre-post design that collects identical information at initiation of NLI contact and again after 12 months. This time frame is necessary to allow CBOs the opportunity to address NLI technical assistance recommendations and to plan and implement their changes. In addition, the assessment will collect satisfaction measures after each technical assistance event, and both a

comprehensive satisfaction summary and an activity summary at 6 and 12 months after initial NLI contact. A formal comparison group is not available, but comparisons of changes in key organization status measures can be made with similar data on changes collected from other CSAT KDA-funded grantees. These key status indicators include organization revenues, revenue per client, revenue sources, client flow, staff level, staff turnover, services provided, and major growth/expansion or contraction. In addition, these same indicators will be collected, in one interview, for several prior years to establish a pattern of change within specific CBOs.

A feature of the data collected in this evaluation is the inclusion of pre- and post-service perceptions of organizational functioning across 14 business and financial management domains. This information constitutes a self-assessment that is used in planning NLI services, and comprises the baseline against which follow-up measures of functioning will be assessed.

NLI anticipates receiving requests for assistance from 79 CBOs per year over the next 3 years, for a total of 237 programs. This includes up to 54 CBOs requiring long-term TA, and up to 25 CBOs requiring short-term TA. Data collection burden will be borne primarily by directors of the CBOs who will provide initial contact information (30 minutes), pre- and post-test versions of organizational self assessments (60 minutes), satisfaction forms (5 minutes each for 2 types of questionnaire), and activity summaries (10 minutes). Moreover, up to 10 focus groups will be held with staff representatives from 3 to 6 CBOs per focus group. Discussions will be held with staff representatives from CBOs receiving NLI services. An estimated 54 staff representatives will be contacted each year. Each focus group will have approximately 18 attendees. Finally, an estimated 475 attendees at training events per year will also receive a brief satisfaction questionnaire. The chart below summarizes the total three-year and annualized burden for this project.

Form	Estimated number of respondents	Responses per respondent	Hours per response	Total hours
Technical Assistance Recipients				
Initial Contact Form	237	1	.25	59
Organization Self-Assessment	237	2	.75	356

Notice of Intent To Revise the Comprehensive Conservation Plan and To Prepare an Environmental Impact Statement for Togiak National Wildlife Refuge, Alaska

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice and solicitation of comments.

SUMMARY: The U.S. Fish and Wildlife Service (Service) intends to revise the comprehensive conservation plan (comprehensive plan) for the Togiak National Wildlife Refuge, Alaska. The Service furnishes this notice to advise agencies and the public of its intentions, and to gather information needed to revise the plan in compliance with the Alaska National Interest Lands Conservation Act, as amended (16 U.S.C. 3100 *et seq.*), the National Wildlife Refuge System Administration Act, as amended (16 U.S.C. 668dd-668ee), the National Environmental Policy Act, as amended (42 U.S.C. 4321-4347) and its implementing regulations. Specifically, we would like suggestions on the scope of issues which should be addressed in the plan. We will also evaluate the wilderness review and wild and scenic rivers study that were completed previously for refuge lands and waters.

DATES: Comments should be received no later than November 1, 1999.

ADDRESSES: Address comments to Margaret Arend, Refuge Planning Office, U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, AK 99503, telephone (907) 786-3393; fax (907) 786-3965.
