#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Quarterly Mine Employment and Coal Production Report

#### ACTION: Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed Quarterly Mine Employment and Coal Production Report (30 CFR 50.30, Form 7000-2).

MSHA is particularly interested in comments which:

- \* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- \* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- \* Enhance the quality, utility and clarity of the information to be collected; and

- \* Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The reporting and recordkeeping provisions in 30 CFR 50, Notification, Investigation, Reports and Records of Accidents, Injuries and Illnesses, Employment and Coal Production in Mines, are essential elements in MSHA's Congressional mandate to reduce work-related injuries and illnesses among the nation's miners.

Section 30 CFR 50.30(a) requires mine operators and independent contractors working on mine property to report quarterly employment and coal production to MSHA on Form 7000-2. MSHA tabulates and analyzes the information from this form along with data from MSHA Form 7000-1, Mine Accident, Injury, and Illness Report (OMB No. 1219-0007), to compute incidence and severity rates for various

injury types. These rates are used to analyze trends and to assess the degree of success of the health and safety efforts of MSHA and the mining industry.
