II. Background

This notice grants conditional exemptions from TSCA section 4 test rule requirements to all manufacturers of the chemical substances identified in this unit that submitted exemption applications in accordance with 40 CFR 790.80. In each case, EPA has received a letter of intent to conduct the testing from which exemption is sought. Accordingly, the Agency has conditionally approved these exemption applications because the conditions set out in 40 CFR 790.87 have been met. All conditional exemptions thus granted are contingent upon successful completion of testing and submission of data by the test sponsors according to the requirements of the applicable test rule.

If the test requirements are not met and EPA terminates a conditional exemption under 40 CFR 790.93, the Agency will notify each holder of an affected conditional exemption by

certified mail or **Federal Register** notice. This conditional approval applies to all manufacturers that submitted exemption applications for testing of the chemical substances named in the final test rules listed in this unit from January 1 through December 31, 1998. Any application received after December 31, 1998, will be addressed separately.

Testing reimbursement periods have terminated (sunset) for certain chemicals and exemption notices are no longer required for these chemicals. In accordance with 40 CFR 790.45, before the end of the reimbursement period, persons subject to a test rule and required to comply with the requirements of the rule, must submit either a letter of intent to test or an exemption application. Reimbursement period, as defined in 40 CFR 791.3, refers to a period that begins when the data from the last non-duplicative test to be completed under a test rule is submitted to EPA, and ends after an amount of time equal to that which had been required to develop that data or after 5 years, whichever is later.

An exemption application that was received by EPA for 2-ethylhexanol (CAS No. 104-76-7) was not required at the time it was submitted because the chemical has a completed testing program, the reimbursement period has sunset, and the chemical is no longer subject to TSCA section 4 reporting requirements. Exemption applications

received by EPA after the chemical's sunset date do not appear in this notice.
