

program adopted by each railroad is subject to review and approval by FRA.

Annual Estimated Burden Hours: FRA estimates that the revised hours for these ICRs is 585,101. This is a decrease of 82,473 hours from the previous total of 667,574 hours. A significant portion of this reduction is a result of railroads fulfilling the one-time requirement in establishing on-track safety programs. The revised burden hour estimate does consider railroads amending their original on-track safety programs and the start-up of new railroads. Excursion and tourist railroads that do not operate on the general rail system of transportation are exempted by FRA from complying with this regulation.

Addressee: Send comments regarding this information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, N.W., Washington, D.C., 20503, Attention: FRA Desk Officer.

Comments are invited on the following: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
