General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, 202 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, D.C. This 13th Day of May 1999.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

DEPARTMENT OF LABOR**Mine Safety and Health Administration**

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Noise Data Report Form and Calibration Records

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed reinstatement of the information collection related to the Coal Mine Noise Data Report and Calibration Records. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed below in the **FOR FURTHER INFORMATION CONTACT:** section of this notice.

DATES: Submit comments on or before July 20, 1999.

ADDRESSES: Send comments to Theresa M. O'Malley, Program Analysis Officer, Office of Program Evaluation and Information Resources, U.S. Department of Labor, Mine Safety and Health Administration, Room 719, 4015 Wilson Boulevard, Arlington, VA 22203-1984.

Commenters are encouraged to send their comments on a computer disk, via E-mail to TOMalley@msha.gov, along with an original printed copy. Ms. O'Malley can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

FOR FURTHER INFORMATION CONTACT: Theresa M. O'Malley Program Analysis Officer, Office of Program Evaluation and Information Resources, U.S. Department of Labor, Mine Safety and Health Administration, Room 719, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Mrs. O'Malley can be reached at TOMalley@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:**I. Background**

This information is used to evaluate the average noise levels to which miners may be exposed. The information is evaluated to determine if miners working at a particular occupation or operating a particular type of equipment may be exposed to excessive noise levels. This type of information may be useful in determining if there is a need for MSHA to evaluate the miners work area, and to require the mine operator to develop a hearing conservation plan to adequately protect the miners from being exposed to excessive noise levels. In addition, the information may be used to determine if research is needed to assist in the development of engineering controls on equipment that typically generate high noise levels.

II. Current Actions

MSHA inspection personnel routinely conduct a noise survey from a representative number of miners working at various occupations. However, MSHA does not have the resources to conduct a noise survey from the working environment of all miners annually. MSHA relies on the information from the mine operators to determine if there is a need to evaluate the miners work area or to conduct a noise survey. In addition, when a

determination is made that the noise levels being generated by a particular type of equipment are typically above the permissible limits, MSHA uses this information to solicit input from the equipment manufacturers in determining if engineering changes can

be made to the equipment to reduce the noise levels to within permissible limits.

Type of Review: Reinstatement.
Agency: Mine Safety and Health Administration.

Title: Noise Data Report Form and Calibration Records.

OMB Number: 1219-0037.

Agency Number: MSHA Form 2000-168.

Recordkeeping: 1 year.

Affected Public: Business or other for-profit.

BILLING CODE 4510-43-M

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

United States Section; Intent To Prepare an Environmental Impact Statement for the Lower Colorado River Boundary and Capacity Preservation Project, Yuma County, AZ

AGENCY: United States Section, International Boundary and Water Commission, United States and Mexico.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: This notice advises the public that, pursuant to section 102(2)(c) of the National Environmental Policy Act of

1969, as amended, the United States Section, International Boundary and Water Commission (USIBWC) proposes to gather information necessary for the preparation of an environmental impact statement (EIS). The EIS will address the impacts of preservation of the boundary and channel and carrying capacity, and maintenance activities by the USIBWC in the boundary section of the Colorado River. The project is located in Yuma County, Arizona. A public scoping meeting regarding this proposal will also be held. This notice is being provided as required by the Council on Environmental Quality (CEQ) Regulations (40 CFR 1501.7) and the USIBWC's Operational Procedures for Implementing Section 102 of the National Environmental Policy Act of 1969, published in the **Federal Register** September 2, 1981 (46 FR 44083-44094) to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS.

DATES: The USIBWC will conduct a public scoping meeting at the Yuma Civic and Convention Center, 1440 West Desert Hills Drive, Yuma, Arizona, on June 9, 1999, from 6:00 p.m. to 8:00 p.m. Full public participation by interested federal, state, and local agencies as well as other interested organizations and the general public is encouraged during the scoping process which will end 45 days

from the date of this notice. Public comments on the scope of the EIS, reasonable alternatives that should be considered, anticipated environmental problems, and actions that might be taken to address them are requested.

ADDRESSES: Comments will be accepted for 45-days following the date of this notice by Mr. Yusuf Farran, Division Engineer, Environmental Management Division, USIBWC, 4171 North Mesa Street, C-310, El Paso, Texas 79902. Telephone: 915/832-4148, Facsimile 915/832-4167, E-mail: yusuffarran@ibwc.state.gov.

SUPPLEMENTARY INFORMATION: The USIBWC proposes to gather information necessary for the preparation of an EIS to be used to determine specific options for the preservation of the boundary and channel and carrying capacity, and maintenance activities by the Lower Colorado River Boundary and Capacity Preservation Project (LCRBCCP) that could be implemented. Implementation would be conducted in a manner to minimize, consistent with the law and international agreements, the impact of the activities of the project on ecological and environmental resources in the project area. The project area is the 23.7 mile (38.2 kilometer (km)) boundary segment of the Lower Colorado River from the Northerly International Boundary (NIB) to the Southerly
