#### Agency Information Collection Activities: Proposed Collection; Comment Request; Notification of Arrival of Pesticides and Devices

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this document announces that the Information Collection Request (ICR) abstracted below, Notice of Arrival of Pesticides and Devices (EPA Form 3540-1, OMB Control No. 2070-0020; ICR No. 152.06), has been forwarded to the Office of Management and Budget (OMB) for

review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before July 1, 1999.

**FOR FURTHER INFORMATION CONTACT:** Sandy Farmer at EPA by phone at (202) 260-2740, by e-mail at [farmer.sandy@epamail.epa.gov](mailto:farmer.sandy@epamail.epa.gov), or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 152.06.

#### SUPPLEMENTARY INFORMATION:

**Title:** Notice of Arrival of Pesticides and Devices (EPA Form 3540-1, OMB Control No. 2070-0020; EPA ICR No. 152.06). This is a request for an extension of a currently approved collection.

**Abstract:** FIFRA section 17(c) directs the Secretary of the Treasury to notify the Administrator of the Environmental Protection Agency (EPA) of the arrival of pesticides and devices being imported into the United States and deliver to the Administrator, upon the Administrator's request, samples of pesticides or devices which are being imported into the United States.

The Notice of Arrival form (EPA Form 3540-1), prescribed by 19 CFR 12.112(a), is the instrument by which Customs and the EPA achieve coordination over shipments of goods classified as pesticides imports. The Notice of Arrival (NOA) form, acknowledging an impending shipment of pesticides or devices, must be presented to EPA prior to the arrival of the pesticide products for each shipment of pesticides.

Pesticide importers, brokers, consignees, must prepare the NOA, identifying the nature of the planned importation, and submit it to the EPA region having jurisdiction over the port through which the pesticide or device is to be imported. EPA regional personnel review the submission to determine whether the planned import appears to comply with FIFRA, and whether there is an apparent need to inspect the import. After review, EPA signs and returns the NOA to the importer.

The importer presents the EPA-signed NOA to the District Director of U.S. Customs at the port of entry. The U.S. Customs notifies the EPA regional office, if instructed, or if it identifies any discrepancies. Customs releases the shipment for entry following receipt of EPA clearance and signs part III of the NOA which is then returned to the regional office with jurisdiction over the port of entry. Each region stores and maintains its own copies of NOA

submissions. A copy of the NOA, instructions for its completion, section 17 of FIFRA, and 19 CFR 12.112 is attached to further explain and document this reporting requirement.

The purpose of this reporting requirement is to help insure that pesticides and devices entering the U.S. comply with U.S. laws governing such products. Uniform reporting of information submitted for pesticides arriving in the customs territory of the U.S. is necessary to monitor compliance with FIFRA, to identify the responsible party in cases of violations, and to determine specific information regarding the source of any pesticide in question. The information permits EPA to stop ineffective, unregistered, suspended, canceled, misbranded, contaminated, or otherwise violative products from being imported into the country, track those that do enter, and minimize adverse environmental impacts that might arise from the importation of violative products. Additionally, by requiring brokers/agents to offer documentation to Customs and EPA of the importation of registered pesticides, the flow of commerce for approved products is facilitated. The information collected is used by EPA regional pesticide enforcement and compliance staff, the Office of Enforcement and Compliance Assurance and Office of Pesticide Programs. U.S. Customs, the U.S. Department of Agriculture, the Food and Drug Administration, and other Federal agencies also make use of this information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on January 5, 1999. No comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.30 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to: review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing

and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:**

Persons importing pesticide products and devices.

**Estimated number of respondents:**

7,000 annually.

**Estimated number of responses:** 7,000 annually.

**Frequency of response:** Once per shipment of pesticide or device imported.

**Estimated total annual hour burden:** 2,100 hours.

**Estimated total annualized cost burden:** \$0.

Please send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing the respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR 152.06 and OMB Control No. 2070-0020 in any correspondence.
