Technical Conference on Year 2000 Issues for the Oil and Natural Gas Sector; Notice of Technical Conference

June 1, 1999.

Take notice that the Federal Energy Regulatory Commission (FERC) is sponsoring a technical conference to be held on Tuesday, June 29, at 10:00 a.m., in the Commission Meeting Room at 888 First Street, NE, Washington, DC 20426. This conference is being held as an outreach for the President's Council on Year 2000 Conversion (Council), which designated FERC as the lead agency for the Oil and Gas Sector of its Energy Working Group. The conference will be hosted by the Natural Gas Council (NGC) and the American Petroleum Institute (API). All interested persons are invited to attend.

The third report in a series of quarterly assessments of Y2K readiness efforts will be presented by the industry associations that are part of the Council's Oil and Gas Sector Working

Group, from the April survey which was distributed by the industry associations to individual companies. Survey results will be compiled and aggregated by industry associations so that individual company responses remain anonymous. This conference will focus on promoting awareness of Year 2000 issues and coordinating information sharing on testing and solutions among companies in the oil and natural gas industries rather than internal solutions of individual companies.

The proposed agenda for the conference is as follows:

Introduction to Technical Conference
Industry Progress and Survey Results
Inter-Industry Efforts,
Interdependencies Workshop
A Municipal Perspective
International Supply Chain
Dependencies
Customer Communications Efforts
Overview of Industry/Company Drills
Industry Audits
Questions and Answers
