National Oceanic and Atmospheric Administration

15 CFR Part 922

Regulation of the Operation of Motorized Personal Watercraft in the Gulf of the Farallones National Marine Sanctuary

AGENCY: Marine Sanctuaries Division (MSD), Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Extension of comment period.

SUMMARY: On April 23, 1999, NOAA published a proposed rule and notice of availability of a Draft Environmental Assessment (DEA) restricting the use of motorized personal watercraft in the Gulf of the Farallones National Marine Sanctuary (FR Volume 64, Number 78, pages 19945-19952). On May 20, 1999, NOAA published a notice of public meeting and extension of the comment period. This notice further extends the comment period.

DATES: Comments on the proposed rule or DEA must be received by July 1, 1999.

ADDRESSES: Comments should be sent to Ed Ueber, Sanctuary Manager, Gulf of the Farallones National Marine Sanctuary, Ft. Mason, Building 201, San Francisco, California 94123; fax: (415) 561-6616; email: ed.ueber@noaa.gov. Comments received will be available for public inspection at the above address.

FOR FURTHER INFORMATION CONTACT: Ed Ueber at (415) 561-6622.

SUPPLEMENTARY INFORMATION: NOAA proposed to amend the regulations governing the Gulf of the Farallones National Marine Sanctuary (Sanctuary) to prohibit the operation of motorized personal watercraft (MPWC) in the nearshore waters of the Sanctuary. Specifically, the operation of MPWC would be prohibited from the mean high-tide line seaward to 1,000 yards (approximately 0.5 nautical mile), including seaward of the Farallon Islands. The proposed rule would ensure that Sanctuary resources and qualities are not adversely impacted and would help avoid conflicts among various users of the Sanctuary.

The original notice of proposed rule, published on April 23, 1999, had a 30 day comment period, which closed on May 24. On May 16, 1999, NOAA submitted a notice to the **Federal Register**, which was published on May 20, 1999, extending the comment period until June 11, 1999. On May 17, 1999, NOAA received a request to extend the comment period for at least an additional 30 days beyond the original comment period. This extension of comment period until July 1, 1999, is in response to that request.

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service is changing the prohibition in § 265.6(d)(8) of title 39 of the Code of Federal Regulations (CFR) against disclosure of information contained in PS Form 1583, Application for Delivery of Mail Through Agent, to conform to recent changes in the Domestic Mail Manual. Under the rule change, the recorded business name, address, and telephone number of the addressee using a Commercial Mail Receiving Agency (CMRA) private mailbox (PMB) for the purpose of doing or soliciting business with the public will be furnished to any person upon request without charge.

SUPPLEMENTARY INFORMATION: The Postal Service has adopted rules amending sections D042.2.5 through D042.2.7 of the Domestic Mail Manual (DMM) to update and clarify procedures for delivery of an addressee's mail to a CMRA.

Section D042.2.6 (b) of the DMM, as recently amended, requires an applicant for delivery of mail through an agent to indicate on PS Form 1583 whether the PMB will be used for the purpose of doing or soliciting business with the public. If so, certain information about the applicant that is contained in PS Form 1583 may be available to the public upon request.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 80

[AMS-FRL-6354-4]

RIN 2060-AI29

Regulation of Fuel and Fuel Additives: Modification of Compliance Baseline

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed rulemaking.

SUMMARY: With today's action the U.S. Environmental Protection Agency ("EPA", "the Agency", or "we") proposes to evaluate the conventional gasoline emissions, from gasoline that a refiner sells in Puerto Rico in excess of its baseline volume of Puerto Rico gasoline, using only the summer version of the Complex Model. Accordingly, we propose to modify the reformulated gasoline program's anti-dumping compliance baseline calculation. This modification will replace the annual average statutory baseline term with a summer statutory baseline term for purposes of evaluating a refiner's excess Puerto Rico gasoline. We also propose to replace the winter Complex Model with the more climatically appropriate summer Complex Model for all baseline and compliance calculations for Puerto Rico gasoline. The proposed provisions would apply to any refiner that has Puerto Rico gasoline in its individual

baseline, has increased production of gasoline for sale in Puerto Rico above its individual baseline volume of Puerto Rico gasoline, and petitions the Agency to apply the proposed modified compliance baseline to its Puerto Rico gasoline. EPA will require any refiner submitting such a petition to recalculate its individual baseline using the summer Complex Model for all Puerto Rico gasoline.

We anticipate that today's action will affect only a single refiner. We have not yet fully evaluated the implications of a general shift toward a climate-sensitive use of the summer and winter Complex Models for other Puerto Rico refiners or gasoline suppliers, or for similarly situated refiners in other regions. However, we request comment from other refiners that produce gasoline for sale in areas not subject to EPA's volatility requirements. Based on the comments we receive, we may or may not proceed with similar future rulemaking action.

DATES: Written comments on this notice must be submitted by July 9, 1999.

ADDRESSES: Interested parties may submit written comments in paper form and/or by E-mail. To ensure their consideration by EPA, all comments must be submitted to EPA by the date indicated under **DATES** above. Paper copies of written comments should be submitted (in duplicate if possible) to Public Docket No. A-99-16 at the following address: U.S. Environmental Protection Agency (EPA), Air Docket Section, Room M-1500, 401 M Street, S.W., Washington, D.C. 20460. The Agency requests that a separate paper copy also be sent to the person listed below under **FOR FURTHER INFORMATION CONTACT**. EPA also encourages that an electronic copy of comments (in ASCII format) accompany the submission of a paper copy (by E-mail to A-and-R-Docket@epa.gov or on a 3.5 inch diskette). Public comments may also be submitted by E-mail to the docket at the address listed above without the submission of a paper copy. However, to ensure the clarity of the submission, EPA encourages that a paper copy accompany the E-mail submission. If comments are submitted by E-mail alone, EPA requests that a copy of the E-mail message that contains the comments be sent to the contact person listed below.

Materials related to this rulemaking are available for review at EPA's Air Docket at the above address (on the ground floor in Waterside Mall) from 8:00 a.m. to 5:30 p.m., Monday through Friday, except on government holidays. The telephone number for EPA's Air
