## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8027]

### Notice of Consideration of an Amendment Request for Sequoyah Fuels Corp., Gore, Oklahoma and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment to materials license SUB-1010 to authorize decommissioning of the Sequoyah Fuels Corp. (SFC) site near Gore, Oklahoma. This license is issued to SFC to possess contaminated material at its Gore site. NRC licenses these facilities under 10 CFR part 40. Specifically, the license authorizes SFC to possess up to 20 million metric tons of source material in any form. The contaminated material at the Gore site is in the form of uranium, uranium oxides, uranium fluorides, thorium, radium, and decay-chain products in process equipment and

buildings, soil, sludge, and groundwater.

On March 26, 1999, the licensee submitted a site decommissioning plan (SDP) to NRC for review. The SDP proposes placing radiologically contaminated materials in a single, on-site, above-grade disposal cell constructed to the technical criteria of 10 CFR part 40, appendix A. It concludes that long-term doses from the contaminated materials placed in the cell and those remaining in the soil and groundwater meet the requirements of the Radiological Criteria for License Termination rule (10 CFR part 20, subpart E) (62 FR 39058). Therefore, the licensee proposes that no other decommissioning is required.

Prior to the issuance of the amendment, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment.

NRC provides notice that this is a proceeding on an application for a license amendment falling within the scope of subpart L, "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules of practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(d). A request for a hearing must be filed within thirty (30) days of the date of publication of this **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Rulemakings and Adjudications Staff of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852; or
2. By mail, telegram, or facsimile addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff.

In accordance with 10 CFR 2.1205(f), each request for a hearing must also be served, by delivering it personally or by mail, to:

1. The applicant, Sequoyah Fuels Corp., P.O. Box 610, Gore, OK 74435 Attention: Mr. Craig Harlin, and;
2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738, between 7:45 am and 4:15 pm Federal workdays, or by mail, addressed to the Executive Director for Operations, U.S.

Nuclear Regulatory Commission, Washington, DC 20555-0001.

In addition to meeting other applicable requirements of 10 CFR part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requestor in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in 2.1205(h);
3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and
4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(d).

For further details with respect to this action, the application for amendment is available for inspection at NRC's Public Document Room, 2120 L Street NW., Washington, DC 20555-0001.
