SUMMARY: This notice proposes to modify Class E airspace at Escanaba, MI. An Instrument Landing System (ILS) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 9 has been developed for Delta County Airport. Controlled airspace extending upward from the surface is needed to contain aircraft executing the approach. This action proposes to increase the radius of the existing controlled airspace for this airport.

DATES: Comments must be received on or before July 29, 1999.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Assistant Chief Counsel, AGL–7, Rules Docket No. 99–AGL–34, 2300 East Devon Avenue, Des Plaines, Illinois 60018

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–230, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267–3484. The Proposal

The FAA is considering an amendment to 14 CFR part 71 to modify Class E airspace at Escanaba, MI, to accommodate aircraft executing the proposed ILS Rwy 9 SIAP at Delta County Airport, by increasing the radius of the existing controlled airspace. Controlled airspace extending upward from the surface is needed to contain aircraft executing the approach. The area would be depicted on appropriate aeronautical charts. Class E airspace designations for airspace areas extending upward from the surface are published in paragraph 6002, and Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005, of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998,

which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
