

NPA: Association for Retarded Citizens of the Peninsula, Inc, Hampton, Virginia

### Deletion

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action will result in authorizing small entities to furnish the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for deletion from the Procurement List.

The following service has been proposed for deletion from the Procurement List:

Grounds Maintenance, Basewide (except Military Family Housing), Kelly AFB, Texas

#### Frozen Concentrated Orange Juice From Brazil; Antidumping Duty Administrative Review; Time Limits

**AGENCY:** Import Administration, International Trade Administration, United States Department of Commerce.  
**EFFECTIVE DATE:** June 11, 1999.

**FOR FURTHER INFORMATION CONTACT:** Shawn Thompson at (202) 482-1776, or Sergio Gonzalez at (202) 482-1779, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230.

**POSTPONEMENT OF FINAL RESULTS OF ADMINISTRATIVE REVIEW:** The Department published the preliminary results of the eleventh administrative review of the antidumping duty order on frozen concentrated orange juice from Brazil on February 5, 1999 (64 FR 5767). The current deadline for the final results in this review is June 7, 1999. In accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), the Department finds that it is not practicable to complete this

administrative review within the original time frame due to the complex nature of certain issues in this review which require further consideration. Thus, the Department is extending the time limit for completion of the final results until August 4, 1999, which is 180 days after the date on which notice of the preliminary results was published in the **Federal Register**. See Memorandum to Robert S. LaRossa, dated June 7, 1999.

This extension is in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and section 751(a)(3)(A) of the Act (19 U.S.C. 1675(a)(3)(A)).

Dated: June 7, 1999.

**Richard W. Moreland,**

*Acting Assistant Secretary for Import Administration.*

#### U.S. Department of Commerce; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

**Docket Number:** 99-004. **Applicant:** U.S. Department of Commerce, Seattle, WA 98115-0700. **Instrument:** Multibeam Echosounder (Sonar). **Manufacturer:** ELAC NAUTIK, Germany. **Intended Use:** See notice at 64 FR 23056, April 29, 1999.

**Comments:** None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. **Reasons:** The foreign instrument provides dual frequency (50 kHz and 180 kHz) capability to allow a ship to perform a near-shore to off-shore survey mission using a depth range from less than 50 m to over 1000 m. The Naval Oceanographic Office advised May 27, 1999 that (1) this capability is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

**Frank W. Creel,**

*Director, Statutory Import Programs Staff.*

#### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

**Docket Number:** 99-009. **Applicant:** University of Illinois at U/C, Purchasing Division, 207 Henry Administration Building, 506 S. Wright Street, Urbana, IL 61801. **Instrument:** Confocal Microscope Attachment. **Manufacturer:** Witec GmbH, Germany. **Intended Use:** The instrument will be used in conducting the experiments on the following materials: (1) Polymers—measurement of the light transmission at a wavelength of 5 microns as a function of position, (2) biomaterials—taking vibrational spectra in a liquid environment via reflection, (3) membranes—observation of molecules passing through the membrane in a liquid environment, (4) aluminum—using reflection spectroscopy to study the chemistry of corrosion in salt water and (5) superconductors—making microscopic circuits in high-Tc superconductors by selectively doping using UV light. In addition, the instrument will be used by students as a research tool in the course Physics 499 Thesis Research. Application accepted by Commissioner of Customs: May 7, 1999.

**Docket Number:** 99-010. **Applicant:** University of Wisconsin—Madison,

Department of Physics, 1150 University Avenue, Madison, WI 53706.

*Instrument:* Diagnostic Neutral Beam System. *Manufacturer:* Budker Institute of Nuclear Physics, Russia, CIS.

*Intended Use:* The instrument is intended to be used for studies of plasma with emphasis on fluctuation and confinement studies. The instrument will also be used by graduate students to learn plasma diagnostic techniques, and collect and analyze scientific data which will be used in the course of their doctoral studies. Application accepted by Commissioner of Customs: May 13, 1999.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### National Estuarine Research Reserve System

**AGENCY:** Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

**ACTION:** Notice of approval and availability of revision to the final revised management plan for the Sapelo Island National Estuarine Research Reserve, 1999-2004.

**SUMMARY:** Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, has approved the revised Management Plan for the Sapelo Island National Estuarine Research Reserve (SINERR). The SINERR was designated in 1976 and has been operating under a Management Plan approved on December 18, 1990. Pursuant to Section 315 of the Coastal Zone Management Act, 16 U.S.C. Section 1461, and Section 921.33(c) of the implementing regulations, a state must revise its management plan at least every five years, or more often if necessary. This revision is Georgia's effort to comply with this requirement.

The revisions to the SINERR Management Plan include the items listed below.

1. The plan adds three full-time state positions to the SINERR staff; one each in research, education and management.
2. With Georgia General Assembly approved state funds, the SINERR has constructed a mainland interpretive

center at the Meridian ferry dock. This 3,000 square foot elevated building is the primary public outreach facility for the SINERR. The center has a large exhibit hall, a 50-seat audio visual room, handicap-accessible facilities and a boardwalk.

3. Under a NOAA matching grant, an existing building on Sapelo Island has been converted into an education/research laboratory. The facility has an audio visual room, office and storage space, an educational laboratory and a wet laboratory to support SINERR education and research/monitoring programs.

4. The revised management plan includes the establishment of education and research task forces from a reorganized SINERR Advisory Committee. The Education Task Force is comprised of representatives from local education institutions, such as colleges, secondary schools, marine sciences programs and state agencies. The Research Task Force is comprised of representatives from the scientific and academic communities.

5. The revised management plan includes the printing and distribution of the SINERR Ecological Site Characterization. This document presents a history of human activity on Sapelo Island and describes the physical, biological and chemical parameters of the SINERR's various habitats.

The impacts of the SINERR Management Plan have not changed and the initial Environmental Impact Statement (EIS) prepared at the time of designation is still valid. NOAA has made the determination that the proposed project will not have a significant effect on the human environment and therefore qualifies for a categorical exclusion under NOAA Administrative Order 216-6. An environmental assessment will not be prepared.

Copies of the document can be obtained from the Sapelo Island National Estuarine Research Reserve, Department of Natural Resources, PO Box 15, Sapelo Island, GA 31327. (912) 485-2251.

**FOR FURTHER INFORMATION CONTACT:** Laurie McGilvray, OCRM, Estuarine Reserves Division, 1305 East-West Highway, 11th Floor (N/ORM5), Silver Spring, Maryland 20910, (301) 713-3155, Extension 158.

(Federal Domestic Assistance Catalog Number 11.420 (Coastal Zone Management Research Reserves))

Dated: June 3, 1999.

**Ted Lillestolen,**

*Deputy Assistant Administrator for Ocean Services and Coastal Zone Management.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### National Estuarine Research Reserve System

**AGENCY:** Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

**ACTION:** Notice of approval and availability of revision to the final revised management plan for the Weeks Bay National Estuarine Research Reserve, 1998-2003.

**SUMMARY:** Notice is hereby given that the Estuarine Reserves Division (ERD), Office of Ocean and Coastal Resource Management, has approved the revised Management Plan for the Weeks Bay National Estuarine Research Reserve (WBNERR). WBNERR was designated in 1986 and has been operating under a Management Plan approved in 1985. Pursuant to Section 315 of the Coastal Zone Management Act, 16 U.S.C., Section 1461, and Section 921.33(c) of the implementing regulations, a state must revise its management plan at least every five years, or more often if necessary. This revision is Alabama's effort to comply with this requirement.

The revisions to the WBNERR Management Plan provide a more complete and updated articulation of reserve goals, objectives, and activities in the areas of administration, research/monitoring, stewardship, education/interpretation, boundaries/acquisition/facilities construction, and the volunteer program for a five year period from 1998 to 2003. The plan will increase community awareness and understanding of the Weeks Bay estuary through Reserve programs and partnerships. Highlights include:

1. Staffing. The revised Management Plan increases Reserve staff, including the addition of a full-time Research Coordinator to manage the System-wide Monitoring Program, initiate research and secure research funds, and support third party research activities in the Reserve boundaries.
2. Future Boundary Expansion and Land Acquisition. The revised Management Plan identifies the five
