**ENVIRONMENTAL PROTECTION  
AGENCY**

[OPPTS-51927; FRL-6077-1]

**Certain New Chemicals; Receipt and  
Status Information**

**AGENCY:** Environmental Protection  
Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 5 of the Toxic  
Substances Control Act (TSCA) requires  
any person who intends to manufacture  
(defined by statute to include import) a  
new chemical (i.e., a chemical not on

the TSCA Inventory) to notify EPA and  
comply with the statutory provisions  
pertaining to the manufacture of new  
chemicals. Under sections 5(d)(2) and  
5(d)(3) of TSCA, EPA is required to  
publish a notice of receipt of a  
premanufacture notice (PMN) or an  
application for a test marketing  
exemption (TME), and to publish  
periodic status reports on the chemicals  
under review and the receipt of notices  
of commencement to manufacture those  
chemicals. This status report, which  
covers the period from March 22, to  
March 31, 1999, consists of the PMNs

and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

**FOR FURTHER INFORMATION CONTACT:** Christine Augustyniak, Associate Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460; telephone numbers: 202-554-1404 and TDD: 202-554-0551; e-mail address: TSCA-Hotline@epa.gov.

**SUPPLEMENTARY INFORMATION:**

**I. Does this Action Apply to Me?**

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the premanufacture notices addressed in the action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the "FOR FURTHER INFORMATION CONTACT" section.

**II. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?**

A. *Electronically.* You may obtain copies of this document and certain other available documents from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations" and then look up the entry for this document under the "Federal Register - Environmental

Documents." You can also go directly to the "Federal Register" listings at <http://www.epa.gov/fedrgrstr/>.

B. *In person.* The Agency has established an official record for this action under docket control number OPPTS-51927. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as confidential business information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the TSCA Nonconfidential Information Center, North East Rm. B-607, Waterside Mall, 401 M St., SW., Washington, DC. The Center is open from 12 noon to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number of the Center is 202-260-7099.

C. *By phone.* If you need additional information about this action, you may also contact the person identified in the "FOR FURTHER INFORMATION CONTACT" section.

**III. Why is EPA taking this Action?**

Section 5 of TSCA requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on

the TSCA Inventory) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a PMN or an application for a TME, and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which covers the period from March 22, to March 31, 1999, consists of the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

**IV. Receipt and Status Report for PMNs and TMEs**

This status report identifies the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period. If you are interested in information that is not included in the following tables, you may contact EPA as described in Unit II above to access additional non-CBI information that may be available.

In table I, EPA provides the following information (to the extent that such information is not claimed as CBI) on the PMNs received by EPA during this period: the EPA case number assigned to the PMN; the date the PMN was received by EPA; the projected end date for EPA's review of the PMN; the submitting manufacturer; the potential uses identified by the manufacturer in the PMN; and the chemical identity.

## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

June 4, 1999.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that

does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be submitted on or before August 13, 1999. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments to Les Smith, Federal Communications Commissions, 445 12th Street, S.W., Room 1-A804, Washington, DC 20554 or via the Internet to [lesmith@fcc.gov](mailto:lesmith@fcc.gov).

currently approved collection.

**Respondents:** Individuals or  
households; Businesses or other for-  
profit; State, Local or Tribal  
Government; Not-for-profit institutions;  
Farms; Federal Government.

**Number of Respondents:** 516,000.

**Estimated Time Per Response:** 5  
minutes

**Frequency of Response:** Reporting, on  
occasion.

**Total Annual Burden:** 43,344 hours.

**Needs and Uses:** Effective July 1,  
1996, the current antenna clearance  
procedures were replaced with a  
uniform registration procedure that  
applied to antenna structure owners.  
Structure owners receive an Antenna  
Structure Registration Number which is  
a unique number that identifies an  
antenna structure. Once obtained, this  
number must be used on all filings  
related to the antenna structure. The  
Commission requires this Registration  
Number to be submitted with any of the  
applications for licensing.

This clearance was required in order  
to allow time for the Commission to  
update it's application forms to include  
collection of Antenna Structure
